Start Date

RNC Detection Codes that should be selected to designate WW SNC

- B
- I
- G
- J

SNC Value

- S
- **E**
- X
- T
- D

RNC Resolution Code

This resolves SNC, typically with an Action and Compliance Schedule

SEV End Date*

*this date can be entered when the agency confirms return to compliance, when enforcement is taken, or when compliance schedule is completed.

Appropriate linkages between inspection data, associated violations, and resulting enforcement should always be entered in ICIS-NPDES. Lead agency (EPA or state) should also be entered (ICIS-NPDES lead agency field to be added 12/08) to ensure proper tracking.
