

SEARS HOLDINGS

PROUDLY ANNOUNCES OUR

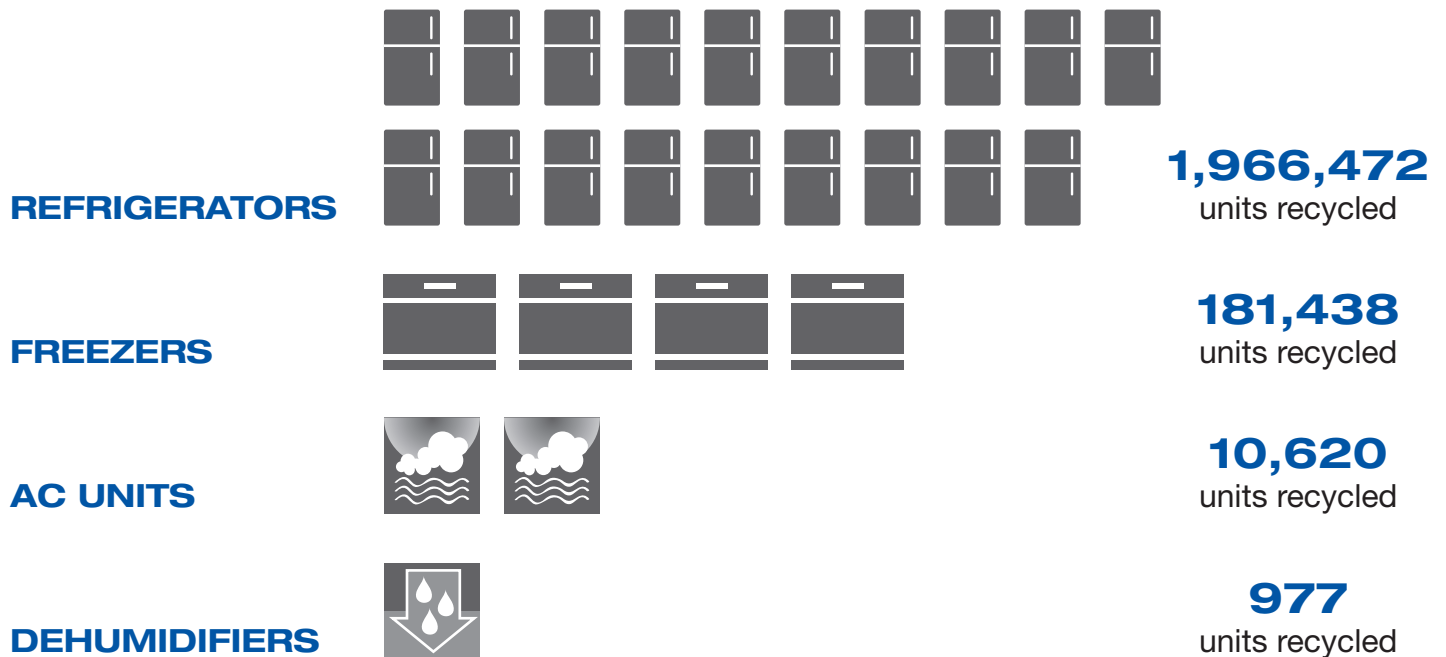

6 YEAR

Anniversary Partnership
as the 1st Retailer to Join the EPA's

Responsible Appliance Disposal Program

The RAD program is an EPA partnership with more than 50 retailers, utilities, and manufacturers who help protect the ozone layer and climate system, keep communities clean, and save energy through responsible recycling of household appliances.

Since 2008, Sears has recycled over 2 million refrigerators, freezers, AC units, and dehumidifiers

Which translates to...

CO₂ emissions from
electricity use of
more than 360,000
homes for one year

carbon sequestered
annually by more than
2 million acres of
U.S. forests
