Subject: PCS Phosphate 404q Decision and Documents

Mr. Salt, Acting ASA(CW), signed the findings and reply to EPA. The attachments are the staff assessment and selected special conditions on adaptive management, monitoring, and reclamation that were already in the

permit, but which address agency concerns. Mr. Salt called Mr. Shapiro, Mr. Sussman, and Mr. Meiburg and left messages. I will call Jim Giattina tonight or first thing in the morning. Bottom line is that our direction is for the Corps to engage in a meeting and discussions with EPA, NMFS, FWS, and the applicant next week, focused on items noted in the reply to EPA (certain headwater stream areas). There is more in the letter. Thanks for your assistance and patience.
