Re: Remedial Investigation for the Estuary, Operable Unit One (OU 1): LCP Chemicals
Superfund Site, Brunswick, Glynn County, Georgia

Dear Mr. Gupta:

The purpose of this letter is to notify Honeywell International, Inc. (Honeywell) that the U.S. Environmental Protection Agency is approving its October 2012 revision of Remedial Investigation Report for the Estuary, Operable One (OU 1), of the LCP Chemicals Site Superfund (Site). Further, the EPA understands that Honeywell will be submitting the draft of the feasibility study (FS) for the Estuary, as described in detail in the Scope of Work (SOW) incorporated into the Administrative Order by Consent for Remedial Investigation/Feasibility Study, EPA Docket No. 95-17-C, by March 8, 2013.

Note that the recent sediment investigation data made available to the EPA by Victor Magar, with Environ, Inc., on September 12, 2012 and November 13, 2012, pursuant to the approved August and October 2012 Sediment Investigation Work Plan and Addendum, should be incorporated into the March 8, 2013 draft of the OU1 FS.

If you have any questions regarding the approval of the Remedial Investigation Report for OU1 of the LCP Chemicals Site or the instructions for next steps in this letter, please contact me at (404) 562-8937.

Sincerely,

Galo Jackson, P.G.
Remedial Project Manager
Superfund Remedial Branch
