I will see you then. Also, I like to take a few minutes to discuss PCS mine in NC. We have a full briefing planned for you but HQ is briefing Mike Shapiro before our briefing with you and they are concern he will want to have some indication of your thoughts on the project and may give you a call. I have attached the power point that HQ has used for management briefing in case you want to review.

OK. How about 8:15? Shouldn't take more than than 15 minutes.

Thanks!

Okay, here is the latest.

This afternoon we spoke with SEPW staff (Tom Fox, Bob Tanner, and Grant Cope) to provide answers to their previous questions, and feedback on the site visit and public meeting.

I did resist some of the ideas that I didn't agree with from a cleanup perspective and ensuring we do not impose any additional delays. They did seem receptive to our perspective as well.

I will be out of the office the week of March 9 but will check email periodically. Please coordinate with Amy if you have questions about the information requested. We asked them to work with Amy next week. Let me know timing for responding to these questions. Thanks.
