Subject: PCS Phosphate: USACE response to EPA elevation

History:  This message has been replied to and forwarded.

Mr. Shapiro,
Please accept the attached submitted on behalf of the Pamlico-Tar River Foundation, Environmental Defense Fund, Sierra Club, and North Carolina Coastal Federation. The letter addresses the Army Corps of Engineers' response to EPA's elevation of the Wilmington District's permit decision on the PCS Phosphate mine expansion. As noted in the letter, the Corps's response fails to adequately address the unacceptable adverse effects identified by EPA in its 404(q) action and therefore action under 404(c) is necessary to prevent long-term environmental damage to the Albemarle Pamlico Estuary system.

Thank you for your consideration of these comments,

Geoff Gisler

Subject Re: PCS Phosphate: USACE response to EPA elevation

Geoff, thanks for forwarding this. I think it would be both fair and potentially helpful to share these with the Corps, specifically DASA Salt, General Semonite of SAD, and Col. Ryscavage. Can I get your permission to do this, or would you rather send the comments directly?

Stan
