

Manufacturer: MeadWestvaco (MWV): Slatersville, LLC
Model: PS211 (ToggLoc)
ASTM Type: IIID (1)

Description:

This is a one piece plastic snap closure with a dispensing spout (Figure 1A). The PS 211 is a green closure with a black or white spout as shown in Figure 1B.

Figure 1A

Figure 1B

This closure can be fitted to either bottles or tubes. The snap closure is permanently attached to the container by continuous threads and matching ratchets on the closure and container (see arrow to ratchets on the closure and the bottle in Figures 2A and 2B).

Figure 2A

Figure 2B

The closure is opened by pushing down on a groove between horizontal lines at the back of the spout (see Figure 3) and then lifting the spout up. The closure is closed by pushing the spout down. The PS211 has horizontal lines on both the spout and the back part of the closure top (Figure 4).

Figure 3

There are no manufacturer's instructions on the PS 211 closure (Figure 4). Figure 4 shows the PS211 with horizontal lines on sides and back of the green closure and back of the black spout.
