# Fiscal Year 2013 Tribal Accomplishments Report

FEBRUARY 2014

## CONTENTS

Introduction.....	1
2013—A Year in Summary .....	1
Tribal Accomplishments by Goals.....	2
Goal 1: Strengthen Government-to-Government Relationships with Tribes and Tribal Partners .....	2
Goal 2: Strengthen Tribal Capacity to Collect, Analyze, and Share Data and Information .....	5
Goal 3: Facilitate the Collection and Analysis of Quality Tribal Data .....	10
Goal 4: Expand the Use of Tribal Data and Analytical Tools .....	12
Looking Forward .....	16

## ACRONYMS

AIEO	American Indian Environmental Office
ANV	Alaska Native Village
BIA	Bureau of Indian Affairs
EPA	U.S. Environmental Protection Agency
EPCRA	Emergency Planning and Community Right-to-Know Act
GAP	General Assistance Program
GIS	Geographic Information Systems
ITEP	Institute for Tribal Environmental Professionals
IPPC	EPA’s Indian Program Policy Council
MyRTK	My Right-To-Know Application
NCAI	National Congress of American Indians
NTC	National Tribal Caucus
OEI	EPA Office of Environmental Information
OITA	EPA Office of International and Tribal Affairs
ORD	EPA Office of Research and Development
RTOC	Regional Tribal Operations Committee
TCU	Tribal Colleges and Universities
TDX	TRI Data Exchange
TEK	Tribal Ecological Knowledge
TGG	Exchange Network Tribal Governance Group
TRI	Toxics Release Inventory
TSC	National EPA Tribal Science Council

# Fiscal Year 2013 Tribal Accomplishments Report

## Introduction

The U.S. Environmental Protection Agency's (EPA) Office of Environmental Information (OEI) Tribal Strategy seeks to maximize the quality and utility of information and analytical tools available for making well-informed decisions in Indian country<sup>1</sup>, Alaska Native Villages (ANVs), and other lands of interest to tribes. This report is a compilation of OEI tribal accomplishments that details efforts and activities conducted in support of the OEI Tribal Strategy during fiscal year (FY) 2013. OEI is committed to the goals and objectives outlined in the Tribal Strategy, and to continued outreach and consultation with tribal partners. This annual Accomplishments Report is a tool to foster communication between EPA and tribal governments, and to provide outreach and technical assistance to tribal governments. In addition, this report may be used to identify needed changes or updates to the Tribal Strategy.

OEI's Tribal Strategy supports:

- EPA's mission to protect human health and the environment, while recognizing the unique needs of Indian tribes, including ANVs;
- OEI's work with other EPA programs, regional offices and tribes on the importance of environmental data and how these data can be used to support tribal priorities;
- Tribal self-governance; and
- Strengthening government-to-government relationships between EPA and tribes.

## 2013—A Year in Summary

Fiscal Year 2013 represents the fourth annual Tribal Accomplishments Report; these reports are a part of the implementation of OEI's Tribal Strategy. OEI:

---

<sup>1</sup> "Indian country," as defined in 40 CFR 71.2, means: "(a) all land within the limits of any Indian reservation under the jurisdiction of the United States Government, notwithstanding the issuance of any patent, and, including rights-of-way running through the reservation; (b) all dependent Indian communities within the borders of the United States whether within the original or subsequently acquired territory thereof, and whether within or without the limits of a state; and (c) all Indian allotments, the Indian titles to which have not been extinguished, including rights-of-way running through the same."

- Conducted extensive consultation and outreach efforts to increase awareness and understanding of new or revised rules and regulations affecting tribes' ability to collect, submit, and analyze environmental data and information;
- Strengthened partnerships with tribal entities to effectively target program activities and tools to support environmental decision-making; and
- Led efforts to increase tribal participation in key EPA programs and initiatives to further understanding of environmental conditions nationwide.

OEI has continued to demonstrate leadership by initiating and supporting efforts to build tribal environmental program capacity. OEI has also improved EPA's ability to collect and analyze data to provide a better understanding of environmental conditions across Indian country as well as the United States.

## Tribal Accomplishments by Goals

To meet the goals of the Tribal Strategy, OEI collaborates with tribal partners on all phases of program development and implementation to enhance the use of new and existing data tools and services. OEI strives to improve EPA's awareness of tribal needs in order to better understand environmental issues of specific importance to tribes and to identify culturally-appropriate solutions for sustainable results. Specific accomplishments toward meeting OEI's Tribal Strategy FY 2013 goals are described below.

### Goal 1: Strengthen Government-to-Government Relationships with Tribes and Tribal Partners

OEI took several important steps in 2013 to improve EPA's awareness of tribal programs and activities, identify concerns unique to tribes, and strengthen partnerships in support of increased tribal capacity to improve environmental decision-making in Indian country and ANVs. OEI's partnership and consultation efforts helped to impart a greater understanding of the issues facing tribal governments, allowing OEI to better plan approaches to address key tribal priorities. Meaningful communication and coordination between EPA and tribal officials helped clarify tribal needs and concerns, and promoted a better understanding of the unique relationship between the federal government and federally recognized tribes. OEI's accomplishments toward meeting Goal 1 of OEI's Tribal Strategy are listed below.

Photo taken December 2012 at the Hibur Cultural Center: The Tulalip Tribes in Tulalip, Washington

## National - EPA Tribal Science Council

Throughout the year, OEI actively participated in EPA's Tribal Science Council (TSC) monthly conference calls, business meetings, workgroups, and trainings. The TSC, established in 1999, is a forum for interaction between tribal and agency representatives to work collaboratively on environmental science issues. The Council is comprised of EPA representatives from across the agency, a tribal representative from each of the EPA regions with federally recognized tribes, and a representative of the Alaska Native Villages.

In FY 2013, OEI worked with the TSC in the following ways to better understand tribal priority science issues and explore ways that EPA can address these issues and consider them in formal planning processes:

- Participation in monthly meetings to discuss actions to address two national tribal science priorities identified by the TSC: climate change and the integration of Traditional Ecological Knowledge (TEK) in environmental science, policy, and decision-making. The traditional values and cultures of American Indians and Alaska Natives are what make them distinct. TEK, the accumulated knowledge and understanding of American Indian and Alaska Native homelands, is their connection to the environment.<sup>2</sup>
- Participation in and documentation of lessons learned from the December 2012 TSC meeting in Tulalip, Washington, hosted by the Tulalip Tribes of Washington. This meeting included one training day on TEK and tribal community health indicators related to natural resource stewardship. Several regional tribes as well as the Northwest Indian Fisheries Commission gave presentations on these topics. The meeting served as a launching point for speakers and strategy development for the June 2013 TEK workshop.
- Collaboration to develop an agenda and format for a workshop co-hosted by the TSC, Onondaga Nation, and the State University of New York, College of Environmental Science and Forestry's Center for Native Peoples and the Environment in June 2013 in Syracuse, NY. In-depth presentations and discussions by tribal members, federal agencies, and members of tribal colleges and universities provided participants with a better understanding of TEK and how tribes and nations are applying TEK to climate change issues and environmental decision-making, including tribal agricultural and subsistence practices.

<sup>2</sup> [Tribal Science Priorities](#)

## FY 2012 OEI Tribal Accomplishments Report

To document progress made toward achieving the goals and objectives described in OEI's Tribal Strategy, OEI developed and released the [FY 2012 Tribal Accomplishments Report](#). OEI's fourth annual report was redesigned to showcase specific efforts and success stories and featured new graphics, data, and other information. Past reports (FY 2010-FY 2012) and the Tribal Strategy can be accessed on [OEI's Tribal Coordination website](#).

## Consultation Efforts

EPA's policy is to consult on a government-to-government basis with federally recognized tribal governments when EPA actions and decisions may affect tribal interests. In accordance with EPA's policy, consultation is a process of meaningful communication and coordination between EPA and tribal officials prior to EPA taking actions or implementing decisions that may affect tribes<sup>3</sup>. OEI took important steps in FY 2013 to ensure tribal representatives clearly understood requirements for environmental data projects and to build EPA-employee capacity to properly consult and work with federally recognized tribes.

### **Draft External Quality Standard for Environmental Data Collection, Production, and Use and Associated Handbooks**

Tribal governments consulted with EPA in FY 2012 on the [Draft External Quality Standard for Environmental Data Collection, Production, and Use](#) and the associated draft handbooks. As part of the consultation process, tribal representatives were able to review and provide feedback on the draft standard, annexes, and handbooks<sup>4</sup>. OEI developed the draft standard to provide greater clarity about quality assurance requirements for environmental data projects.

As a continuation of this process, in FY 2013 OEI conducted a number of information and discussion sessions with tribal participants to improve understanding and address questions about the draft standard and associated handbooks.

- *Tribal Information Sessions:* In January 2013, OEI convened two information sessions for tribes during the public comment period on the draft standard and associated handbooks. The sessions provided an opportunity for tribes who participated in spring 2012 consultations to hear updates and provide additional input. OEI informed tribes of additional opportunities to provide input during the public comment period for the draft standard and discussed how the documents had evolved since the 2012 tribal consultation. Tribal participants asked questions during these sessions and OEI staff were available to address and follow up with more information where needed. Approximately 40 tribal participants attended each session.
- *Discussions with St. Regis Mohawk Tribe and Region 2 Indian Program:* In October 2012, OEI worked with EPA Region 2 (New York, New Jersey, Puerto Rico, and the U.S. Virgin Islands) Tribal and Quality Assurance staff, and the St. Regis Mohawk Tribe to address questions regarding the draft standard and associated handbooks. OEI staff summarized the Spring 2012 tribal consultations, outlined the path forward for the draft standard and handbooks from the public comment period to finalization

<sup>3</sup> EPA Policy on Consultation and Coordination with Indian Tribes.

<sup>4</sup> This standard is relevant to tribes and other entities that receive extramural funds from EPA to conduct projects that involve environmental data collection, production, and use (e.g., tribes receiving environmental program grants for environmental measurement and data collection). The draft standard can be accessed via the [OEI tribal coordination website](#).

and implementation, and identified additional opportunities for tribal engagement during the public comment period.

### Consultation Training for EPA Employees

Working closely with EPA's Office of Research and Development (ORD), OEI developed and conducted two consultation trainings in June and September 2013 for OEI managers and staff to facilitate a better understanding of the requirements of EPA's Policy on Consultation and Coordination with Indian Tribes.

The consultation trainings were structured to:

- Improve understanding of why and how EPA works with federally recognized tribes;
- Identify agency actions and decisions that require consultation;
- Develop proper timeframes and approaches for consultation activities; and
- Explain how to effectively notify tribal officials early in the consultation process to allow for meaningful conversation and tribal input.

**Consultation with Tribal Governments**

**June 11, 2013 2:00-3:30pm EDT**

**Objectives:**

- Learn why and how EPA works with federally recognized Indian tribes
- Understand requirements of EPA's Tribal Consultation Policy
- Hear practical examples relevant to ORD & OEI efforts

Location: 51161 Ronald Reagan Building  
 Webinar link: <https://epa.connectsolutions.com/15kmav0pfoh/>  
 Call-in Number: 866-299-3188

Presenters:  
 Tod Siegal, Office of General Counsel  
 Jeff Besougloff, EPA's American Indian Environmental Office  
 Monica Rodia, Office of Research & Development  
 Beth Jackson, Office of Environmental Information

The training sessions were attended by over 100 employees from both OEI and ORD.

## Goal 2: Strengthen Tribal Capacity to Collect, Analyze, and Share Data and Information

OEI made significant progress toward promoting and enhancing tribal participation in key OEI program areas. During FY 2013, these efforts focused on the Toxics Release Inventory (TRI) and Environmental Information Exchange Network (Exchange Network) programs. Specific accomplishments include:

- Making funding available to tribes and tribal partners to collect and report environmental data;
- Conducting training and outreach efforts to improve understanding of current regulations for reporting information about toxic releases in Indian country; and
- Enhancing communication about key program updates.

OEI's accomplishments toward meeting Goal 2 of OEI's Tribal Strategy are listed below.

## Environmental Information Exchange Network

### Tribal Participation in the Exchange Network

The Exchange Network is an Internet-based system used to exchange environmental and health data among EPA, states, tribes and territories, and other partners.<sup>5</sup> Through the Exchange Network Grant Program, EPA awarded 42 grants valued at approximately \$9.96 million in FY 2013. Of these, tribes received 12 grants at a value of approximately \$2.9 million. As of May 2013, 90 tribes, all 50 states, and five territories have received Exchange Network grants. FY 2013 is the 13<sup>th</sup> year that the Exchange Network Grant Program solicitation has been available for tribes.

### Tribal Support for the Exchange Network Request for Applications

In June 2013, OEI issued the grant funding announcement *Tribal Support for the National Environmental Information Exchange Network*. Funding is awarded to one eligible organization representing a broad cross section of tribes and ANVs to enhance tribal participation in the Exchange Network, thereby supporting better environmental decision-making through improved exchange of and access to environmental information. The recipient will provide Exchange Network-related outreach to tribes by hosting the National Tribal Users Meeting; designing and maintaining a website; publishing a regular newsletter; and building tribal partnerships. In addition, the recipient will participate in the Exchange Network Tribal Governance Group (TGG) and support collaboration, mentoring, and information sharing among tribal stakeholders through the development of a mentoring program. The total estimated funding expected to be available under this competitive opportunity is approximately \$800,000, with an annual value not to exceed \$160,000.

### 9th Annual Exchange Network Tribal Conference

During March 27-28, 2013, the 9<sup>th</sup> Annual Exchange Network Tribal Conference was held in Tulsa, Oklahoma, to provide participants the opportunity to network; learn best practices regarding Exchange Network data flows and data management; explore tools available for tribal use; and take part in various training sessions. Twenty-nine tribal participants representing 16 tribes and the Northwest Indian Fisheries Commission attended the conference.

The TGG invited OEI to give two presentations:

- *Writing an Effective Exchange Network Grant Proposal*: OEI informed participants about common pitfalls in preparing an application, the grant cycle calendar, and general information about the grant process.
- *OEI Tribal Program Highlights*: OEI informed participants about current EPA tribal environmental information efforts. Presenters discussed the scope of OEI's Tribal Program, as well as current opportunities for tribal input, opportunities for ongoing participation in the TRI Program, and other upcoming tribal program milestones. OEI's Tribal Strategy and annual Tribal Accomplishments Report were discussed as foundation documents for reporting current OEI activities and progress toward meeting goals and objectives set forth in the OEI Tribal Strategy.

---

<sup>5</sup> The Exchange Network Grant Program provides funding to states, tribes, inter-tribal consortia, and territories to develop and implement the information technology and information management capabilities they need to actively participate in the Exchange Network. This grant program supports the exchange of environmental data and collaborative work within the Exchange Network.

## Toxics Release Inventory Program: Outreach and Training

### TRI for Tribal Communities Webpage

The Toxics Release Inventory tracks the management of certain toxic chemicals that may pose a threat to human health and the environment. U.S. facilities in different industry sectors must report annually how much of each chemical is released to the environment and/or managed through recycling, energy recovery and treatment. (A "release" of a chemical means that it is emitted to the air or water, or placed in some type of land disposal.)

OEI developed and maintains EPA's *TRI for Tribal Communities* webpage to assist tribes in:

- Identifying sources of toxic chemicals releases in or near Indian country, Alaska Native Villages, or other areas of interest to tribes;
- Tracking increases or reductions of toxic chemicals releases from facilities over time; and
- Prioritizing efforts to reduce pollution from facilities located on or near Indian lands.

Several tools are available on the TRI for Tribal Communities webpage for tribes to access and analyze TRI data.

In July 2013, OEI made the following enhancements to the webpage:

- Posted the final rule, *TRI Reporting for Facilities Located in Indian country* (see inset, page 9);
- Provided a list of TRI facilities that may be located in Indian country;
- Updated information on the 2011 TRI National Analysis: Indian Country and Alaska Native Villages profile;
- Added a presentation to provide an overview of the TRI Program and how tribes can use TRI data, as well as details about the final rule; and
- Redesigned the look and feel of the webpage.

<http://www2.epa.gov/toxics-release-inventory-tri-program/tri-tribal-communities>

### Region 5 Tribal Environmental Program Management Conference

The Region 5 (Great Lakes) TRI Program Coordinator presented an introduction to the TRI Program at the Region 5 Tribal Environmental Program Management Conference on February 12-13, 2013. The presentation focused on basic principles and reporting requirements of the Emergency Planning and Community Right to Know Act (EPCRA)<sup>6</sup> that established the TRI Program. In addition, the Region 5 TRI Coordinator explained new reporting requirements for TRI facilities located in Indian country and demonstrated how to access TRI data

<sup>6</sup> In 1986 Congress passed the Emergency Planning and Community Right-to-Know Act (EPCRA), also known as Title III of the Superfund Amendments and Reauthorization Act. EPCRA establishes requirements for federal, state and local governments, Indian tribes, and industry regarding emergency planning and "Community Right-to-Know" reporting on hazardous and toxic chemicals.

through [TRI Explorer](#) and [TRI.NET](#) to generate reports for analysis. The Region 5 TRI Coordinator also demonstrated the use of Web-based TRI tools such as [myRTK](#) (My Right-to-Know Application) which geographically displays facilities that report to the TRI Program.

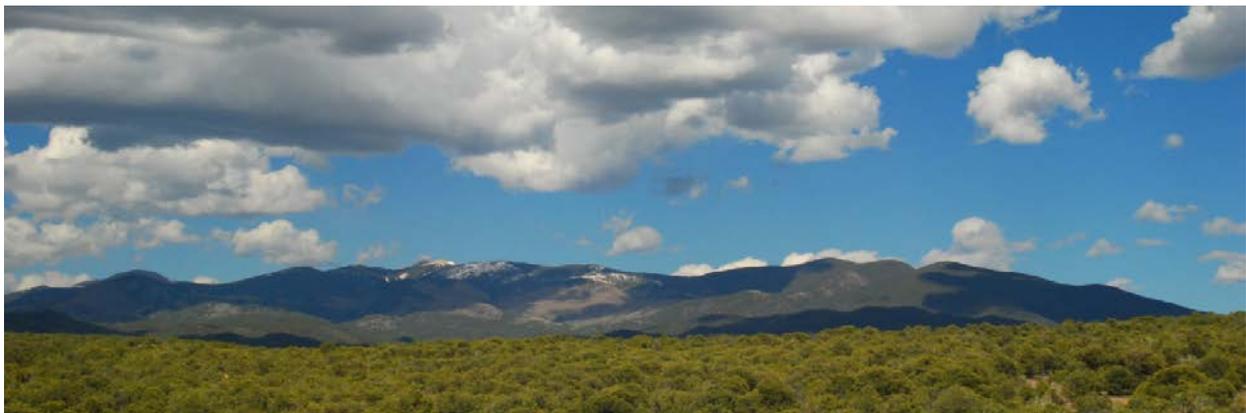

### **Region 9 General Assistance Program (GAP) Grant Workshop**

The Region 9 (Pacific Southwest) TRI Coordinator provided an introduction to the TRI Program to an audience of 35 tribal grantees during the Region 9 GAP Grant Workshop in San Francisco on October 23, 2012. The presentation included a demonstration of TRI databases and tools to show tribes how to identify TRI facilities located on or near tribal lands. In particular, the presentation focused on the use of [TRI Explorer](#), a tool that allows the user to generate reports on releases, transfers, and waste management that can be displayed by facility, chemical, geographic area, industry, reporting years, or on a map. The demonstration showed how TRI Explorer can help communities identify facilities and chemical disposal or other release patterns that warrant further study and analysis.

### **2013 Tribal Lands and Environment Forum**

The Tribal Lands and Environmental Forum is an annual meeting that allows environmental professionals to exchange knowledge and best practices on improving management and protection of tribal lands and human health. In August 2013, OEI attended the 2013 forum sponsored by the Institute for Tribal Environmental Professionals (ITEP), The National Tribal Waste and Response Assistance Program Steering Committee, and EPA's Office of Solid Waste and Emergency Response on the Santa Ana Pueblo in New Mexico.

During a learning session titled "Developing and Enhancing Your Environmental Site Inventory: Online Tools, Public Data Sets, Community Interviews and GIS Tools," OEI staff demonstrated how tribes can use TRI data for their own research, with emphasis on the tribal query capability in Envirofacts. [Envirofacts](#) allows users to search multiple environmental databases for facility information. The training also taught participants how to use the new tribal areas layer to visualize TRI data through Envirofacts, and gave an overview of other TRI tools including myRTK, TRI Explorer, TRI.NET, and various geospatial tools (e.g., ArcGIS, EPA's GeoPlatform, and other mapping tools). A copy of this presentation and other conference presentations can be found on the [ITEP website](#) under the Presentation tab.

## Implementation of the Final Rule for TRI Reporting Facilities Located in Indian Country

In FY 2013, OEI took a number of important steps to implement the final rule on TRI Reporting in Indian country to promote greater tribal participation in the TRI Program. The rule gives tribal governments the right to directly receive TRI reports from facilities located in Indian country and also explicitly clarifies the rights of tribal leaders to take an active role in TRI through petitions to modify the toxic chemical list or requests to add individuals facilities located within their jurisdiction to TRI (see inset below for final rule details).

### TRI Reporting in Indian Country Final Rule

In April 2012 EPA finalized the rule, *TRI Reporting for Facilities Located in Indian Country and Clarification of Additional Opportunities Available to Tribal Governments Under the TRI Program*. Under this rule, facilities located in Indian country and meeting TRI reporting requirements are required to submit TRI reports to EPA and the appropriate tribe, rather than to the state in which the facility is geographically located. This rule also clarifies that a tribal chairperson (or equivalent elected official) has equivalent opportunities to a state governor to petition EPA to request that individual facilities located within their jurisdiction be added to TRI and that a particular chemical(s) be added to or deleted from the TRI chemical list.

The Agency's action is part of its ongoing efforts to increase tribal participation in the TRI Program and improve access to information on toxic chemical releases that affect the local communities in Indian country. Through this final rule, EPA provides tribal governments with the right to directly receive release reporting information from facilities located in Indian country and also explicitly clarifies the rights of tribal leaders to take an active role in TRI through petitions to modify the toxic chemical list or requests to add a facility within their Indian country to TRI.

This final rule became effective April 19, 2012. The requirement of facilities located in Indian country to report to tribal governments is applicable beginning with TRI reporting year 2012 (TRI reports were due by July 1, 2013).

*Federal Register/ Vol. 77, No. 76*

### TRI Reporting Enhancements

OEI updated [TRI-MEweb](#) ("Toxics Release Inventory – Made Easy Web"), a Web-based application that enables facilities to file paperless TRI reports and assists with mailing reports to tribal officials. Tribal governments can also choose to provide electronic options for report submittal. If a tribal government becomes a member of the Internet-based TRI Data Exchange (TDX), then the owner or operator of a facility can meet its dual EPA/tribal reporting requirements by submitting its TRI report to EPA via TRI-MEweb. Tribal governments may join TDX using either the node transfer method or the download method.

OEI also took action to address reporting inaccuracies from facilities located on both tribal and state land, and provide guidance to facilities with additional questions.

### Continuation of TRI Webinar Series for Tribal Communities

In FY 2013, OEI hosted the third in a series of webinars to explain the use and relevance of the TRI Program to tribal communities and highlight activities that provide tribal governments opportunities to fully participate in the TRI Program. The webinar covered the basics of the TRI Program, the TRI reporting in Indian country final rule (see inset above, page 9) and discussed the use of TRI data for tribal purposes. The presentation, [\*Toxics Release Inventory Program: Releases and Other Management of Toxics Chemicals on or Near Tribal Lands\*](#), is available on the TRI webpage.

## TRI Bimonthly Calls with Regional, State, and Tribal Representatives

The TRI Program holds bimonthly calls with TRI state coordinators and TRI regional coordinators (located in each of EPA's ten regional offices). To facilitate implementation of the final rule on TRI reporting in Indian country, OEI asked tribes to designate an official to receive TRI reports and invited designated TRI tribal officials to participate in the bimonthly calls.

Example of topics discussed include: the TRI National Analysis, launch of the new TRI Pollution Prevention tools, the TRI University Challenge, TRI Reporting Year 2012 Preliminary Data Release, and the request for proposals for a one million dollar cooperative agreement, *Increasing Community Awareness and Use of Environmental Information through Education and Outreach*.

## Region 9 Annual Training Conference

In partnership with ITEP, the Region 9 (Pacific Southwest) TRI Program demonstrated how to use TRI data and tools to discover and visualize data at the 21<sup>st</sup> Annual Region 9 Tribal/EPA Conference in November 2012. During the presentation, a volunteer out of an audience of 50 tribal participants demonstrated the use of the My Right-to-Know Application (myRTK) to geographically display TRI facilities on or near tribal lands. The demonstration also showed how to use TRI Explorer to generate reports about facility releases. Later, the Region 9 TRI Coordinator discussed implementation activities and potential impacts on tribal governments of the final rule on TRI reporting in Indian country (see inset, page 9).

**EPA Tools**

**Tools to help users access and analyze TRI data:**

**myRTK:** for quick snapshot of facilities in your area and information about compliance history, chemicals released and potential health effects.

**TRI Explorer:** reports of releases, transfers, and waste managed that can be compared across facilities, chemicals, geographic areas, industries (NAICS code) or reporting years.

**TRI.Net** Build customized TRI data queries which users can then download, map and analyze results with other data sources.

Geospatial tools (ArcGIS, [EPA's GeoPlatform](#), other mapping tools)

Tools and training **to assist facilities with reporting** can be found here: <http://www.epa.gov/tri/training/index.htm>

## 2012 White House Tribal Nations Conference

The White House Tribal Nations Conference is an opportunity to connect tribal leaders across the country directly with the President, his administration, and federal agencies. In December 2012, EPA's Administrator and senior leadership answered questions during the conference and provided updates on current EPA efforts that are priorities for tribes and tribal organizations. Then-Administrator, Lisa P. Jackson, discussed new TRI facility reporting requirements and opportunities now available to tribal governments under the final rule for TRI reporting facilities located in Indian country.

## Goal 3: Facilitate the Collection and Analysis of Quality<sup>7</sup> Tribal Data<sup>8</sup>

OEI made important contributions to enhance the utility and quality of available tribal data and provide access to environmental data through existing and new tools. OEI's accomplishments toward meeting Goal 3 of OEI's Tribal Strategy are listed below.

<sup>7</sup> Quality: sufficient, relevant, appropriate, reliable, and desired data.

<sup>8</sup> Tribal Data: data from or about tribal lands and surrounding areas that affect tribal lands.

### Tribal Areas Layer in EPA GeoPlatform

EPA developed a suite of tools, data, and services known as EPA's GeoPlatform to coordinate and consolidate mapping activities, applications, and data. The GeoPlatform supports a wide variety of uses across EPA, including environmental justice screening tools and other data and applications of interest to tribes (see inset below, page 11). In April 2013, OEI created a geographic tribal lands layer as the final step to combine existing federal data on tribal boundaries (i.e., Census and Bureau of Land Management datasets) in one data layer. The data layer is also available as a map service through EPA's GeoPlatform and it is currently the basis for a tribal filter in EnviroFacts and TRI Explorer. OEI leads the agency's efforts to develop an integrated, comprehensive, efficient, and nationally consistent strategy for collecting, maintaining, and using geospatial information relevant to communities.

#### EPA GeoPlatform

In 1994, Executive Order 12898 (EO 12898) mandated that each federal agency make achieving environmental justice part of its mission by identifying and addressing disproportionately high and adverse human health or environmental effects of its program, policies and activities on minority, low-income, tribal, and indigenous populations.

In response to EO 12898, EPA developed a suite of tools, data, and services known as EPA's GeoPlatform to coordinate mapping activities, applications, and data across EPA. GeoPlatform provides access to a wide range of EPA and stakeholder data pertaining to environmental issues, public health, demographic data, and administrative information.

The GeoPlatform is becoming a useful tool for sharing geospatial information with tribal partners and other stakeholders.

For example, in FY 2013, EPA staff in Region 6 (South Central) used the GeoPlatform environment to support the sharing of maps depicting underground storage tanks and their status with their stakeholders including tribes. EPA seeks to ensure that data and information is documented and available across the Agency, to states and tribes, and to other communities to conduct relevant geospatial analysis in their area of interest using EPA publically available data, tools, and applications.

### TRIBES Web Services – Tribal Identifier Data Standard

Developed in partnership with states and tribes, EPA's data standards ensure interoperability among information systems. In order to effectively exchange and integrate environmental information about tribes, it is necessary to use consistent names and codes for their proper identification. To ensure this consistency, EPA's tribal identifier data standard relies on the Bureau of Indian Affairs' (BIA) list of federally recognized tribes. Periodically these names and codes are updated as tribes are added, deleted, or changed. Recognizing the need for automated access to the most current list available, on January 9, 2013, OEI launched a suite of Web services called TRIBES to provide access to the current list of American Indian tribal names and codes that constitute EPA's tribal identifier data standard.

In July 2013, OEI and EPA's Office of International and Tribal Affairs (OITA) released a joint memorandum across EPA offices to encourage adoption of the tribal identifier data standard and enhance the ability to effectively exchange and integrate information about tribes. Going forward, OITA and OEI will work with agency system owners to implement the data standard via TRIBES Web services.

## Envirofacts Tribal Query

OEI developed a new search capability for tribal data within the Envirofacts multisystem data tool in spring 2013. Envirofacts allows users to search multiple environmental databases for facility information, including toxic chemical releases, water discharge permit compliance, hazardous waste handling processes, Superfund status, and air emission estimates. The new tribal search function enhances collaboration and access to tribal information by allowing users to query a broad array of EPA's environmental datasets by tribe, in addition to the existing city, state, and zip code search functionalities.

The tribal search can be launched via the [Envirofacts Multisystem Search tab](#).

**EPA Envirofacts**

Six TRI Search tools in EPA's one stop source for environmental information.

- Find facilities that report to TRI.
- Create customized summaries of reported TRI information, generate release and waste management reports.
- Review submitted TRI reporting forms and download TRI data.

7

## Goal 4: Expand the Use of Tribal Data and Analytical Tools

OEI worked extensively with tribal and intra-agency partners to expand technology transfer and improve environmental decision-making by increasing access to the latest data and tools. OEI also partnered with tribal academic institutions to deepen the agency's understanding of tribal environmental issues, apply best practices rooted in scientific principles, and solve problems among tribal communities. In coordination with EPA regions and tribes, OEI worked to ensure communication with tribes and tribal partners across OEI offices and programs. On a regular basis, OEI met with the AIEO and EPA Regional Indian Program Coordinators to discuss issues of importance to EPA's tribal program. OEI's accomplishments toward meeting Goal 4 of OEI's Tribal Strategy are listed below.

### TRI National Analysis: Analysis of Indian Country and Alaska Native Villages

The TRI National Analysis is an annual report of EPA's analysis and interpretation of the most recent TRI data. Each report includes a separate analysis of toxic releases for Indian country and ANVs. In January 2013, the 2011 TRI National Analysis (based on the most current TRI data available at that time) was published on EPA's website and announced in a press release, on Twitter, Facebook, and other social media venues by regional TRI Program Coordinators. Specific trends in releases on tribal lands were reported in the [FY 2012 Tribal Accomplishments Report](#). The 2012 TRI National Analysis, including data and information on Indian country and ANVs, is expected to be released in early 2014.

### Outreach Webinars for Tribal Analysis and Decision Making

OEI conducted several outreach webinars to raise awareness and understanding of tools for environmental analysis among tribal users. By using a webinar format, OEI was able to directly demonstrate the application of environmental information tools and facilitate active participation among tribal attendees.

*NEPAssist and Envirofacts Regional Demonstrations:* OEI held a webinar for the Region 6 (South Central) Regional Tribal Operations Committee (RTOC) that featured demonstrations of NEPAssist and Envirofacts to assist tribes with piloting EPA Tribal Environmental Plans. NEPAssist is a tool that facilitates the environmental review process and project planning in relation to environmental considerations. The webinar included examples specific to tribes in Region 6 and taught participants how to use the tools to identify facilities and other related data. The demonstration included a detailed overview of both tools to assist tribes with environmental queries and analyses on tribal lands or other areas of interest.

At the request of Region 1 (New England), OEI hosted a webinar tools demonstration to assist tribal partners in learning how to use Envirofacts to identify facilities and related data of interest in the Region 1 area. The webinar showed how to run a query by tribe, city, state, zip code, or facility. OEI staff explained in detail the types of information contained in Envirofacts and the various reports that can be generated.

*Envirofacts and EPA GeoPlatform Demonstrations:* OEI hosted a webinar in July 2013 for EPA Tribal Program Managers that included demonstrations of the Envirofacts tribal query and the EPA Tribal Areas layer on the GeoPlatform (see inset, page 11). Specifically, OEI staff:

- Highlighted a Web map of tribal areas and explained how to overlay the EPA Tribal Areas layer with other data of interest;
- Showed how to run an Envirofacts query on or near a specific tribal area, or on all federally-recognized tribal lands across multiple data systems, and explained how this analytical screen could be used for program and regional efforts; and
- Reminded Tribal Program Managers of the existing tribal identifier data standard and benefits of its use across EPA to ensure data quality and consistency.

OEI also discussed Web services now available to facilitate implementation of the tribal identifier data standard and allow other EPA tools to use the EPA Tribal Areas layer.

### **Collaboration with the Institute for Tribal Environmental Professionals for Tribal Toxics and TRI Program Support**

OEI contracted with ITEP to assess tribal environmental departments' knowledge of the TRI Program, their use of TRI data, and their needs for TRI data and tools. OEI is working with ITEP to develop TRI training modules that are culturally appropriate for tribal environmental departments and to provide a mechanism to increase awareness of the TRI Program among tribes. During FY 2013, ITEP:

- Presented at the 2013 Tribal Lands Forum with OEI to demonstrate how to extract EPA data from Envirofacts using the new tribal query and tribal areas layer in EPA's GeoPlatform;
- Conducted TRI outreach to tribes through attending various RTOC meetings and tribal environmental venues; and
- Developed TRI training for tribes. In mid-2014, the TRI training will be hosted on ITEP's website.

## Intra-Agency Collaboration

OEI serves on a number of agency-wide councils, workgroups, and teams focused on supporting key EPA initiatives and policies, emerging science, and actions to enhance protection of the environment and public health for federally-recognized tribes. OEI collaborated with other EPA programs in FY 2013 to enhance tribally-relevant data search capability; build employee competencies and understanding of EPA's duty to conduct meaningful tribal consultation; support tribal research; and strategically plan to better serve tribal communities.

### Tribal ecoAmbassadors Program

OEI partnered with OITA to coordinate EPA's 2013-2014 Tribal ecoAmbassadors Program. The Program partners EPA scientists with Tribal College and Universities (TCUs) professors to solve environmental problems most important to tribal communities. As part of this effort, EPA conducts research in partnership with TCU professors, students, and community leaders to bring environmental improvements to schools and neighborhoods. The partnership began in April 2012 and will continue through June 2014. OEI provided technical support and funded \$17,243 for the 2013-2014 academic year.

The 2013-2014 projects focused on:

- Developing a climate change data collection course to transfer to other TCUs;
- Developing a student-led program to explore the interactions between food and mercury exposure;
- The creation of a marketable carbon-negative building material using recycled glass; and
- Using traditional methods to decrease biotoxins in shellfish.

In July 2013, EPA's Tribal ecoAmbassadors were invited to the White House to discuss their research and findings on the most critical issues affecting tribal communities.

OEI collaborated with OITA and the National Museum of the American Indian to feature the work of the Tribal ecoAmbassadors at the 2013 Smithsonian Living Earth Festival on July 21, 2013, which was presented to over 24,000 visitors and 12 TCUs on a live webcast.

### 2013-2014 Tribal ecoAmbassadors

Across the United States, EPA scientists, Tribal College and University professors and students have embarked on projects to help community residents become part of an environmentally conscious future.

Courtesy of Tohono O'odham Community College: Project on Carbon-Negative Building Materials

Tribal ecoAmbassadors also met with EPA Tribal Program Managers and interagency contacts from the U.S. Departments of Agriculture and Defense, AmeriCorps, and the Indian Health Service to showcase their projects, discuss additional partnership building efforts, and learn about additional federal resources.

At the end of the 2013-2014 academic year, the program has given over 100 students the opportunity to work with professors and EPA scientists to solve environmental problems in tribal communities, and developed three transferable online courses for use by TCUs. The Tribal ecoAmbassadors have also forged more than a dozen new partnerships that support a long-term strategy to continue work beyond the funded academic year.

### **EPA Indian Environmental General Assistance Program Guidance Review Team**

The Indian Environmental General Assistance Program (GAP) provides resources for tribes to establish and strengthen tribal environmental protection programs. To optimally serve tribes, EPA's Indian Program Policy Council (IPPC), comprised of the National Program Managers, Deputy Assistant Administrators, and Deputy Regional Administrators, identified the need for a more structured approach to building tribal environmental protection program capacities under GAP and a mechanism to measure the progress tribes are making toward their defined program development goals. An agency GAP review team was then convened to review and update the existing GAP Guidance document based on internal and external review and comment.

OEI staff participated on the review team which included EPA senior management and Tribal Program Coordinators from EPA headquarters and regions. In May 2013, the final GAP Guidance document, Guidance on Award and Management of General Assistance Agreements for Tribes and Intertribal Consortia, was published. Once implemented, the guidance will enable EPA and tribes to allocate GAP resources to the most pressing program development priorities and improve EPA's ability to measure progress as successful tribal environmental protection programs are established and grow.

### **EPA Headquarters Indian Program Coordinator Meetings**

With EPA's Office of Research and Development (ORD), OEI reconvened meetings of the EPA Headquarters Indian Program Coordinators to discuss national level topics, coordinate with the EPA American Indian Environmental Office, and organize headquarters' positions on requests for comment on tribally relevant documents and policies. In FY 2013, this group successfully worked together to develop tribal consultation trainings, assist the National Tribal Caucus with questions on their strategic planning efforts, elevate EPA needs for tribal data, and position the agency to build partnerships with other federal agencies to discuss plans to better serve tribal communities.

## EPA Tribal Program Meetings

OEI meets regularly with EPA Tribal Programs to work on identified action areas to better serve federally recognized tribes and tribal communities. EPA's AIEO facilitates a biweekly meeting to address agency procedures and actions. Meetings serve as a forum to continue EPA's work toward maintaining, developing, and improving agency policies with tribal implications.

## Looking Forward

The FY 2013 Accomplishments Report documents OEI's achievements in working with tribal partners to increase awareness, understanding, and implementation of EPA programs, rules, and data systems. OEI will use this report in conjunction with the Tribal Strategy to focus resources on efforts shown to be successful and reexamine efforts that can be improved. With continuous input from tribal partners and a process in place to gauge effectiveness on an annual basis, OEI is prepared to meet new and emerging environmental challenges in FY 2014 and the years to come.

Fundamental to the Tribal Strategy is OEI's recognition, through words and actions, that EPA's programs are stronger and more protective of human health and the environment when they meet the needs of a broad, diverse universe of partners. This requires robust data from partnerships representing the views of the nation as a whole. When these data are transformed into information, all parties are empowered to make stronger, more inclusive decisions. OEI will continue to use Tribal Accomplishments Reports to maintain conversations with tribes to identify needed changes or updates to the OEI Tribal Strategy, discuss information efforts and concerns of tribes and tribal partners, and expand coordination among OEI and other EPA program offices.

# Appendix A: List of Tribes by EPA Region

## Region 1: New England

Mashantucket Pequot Tribe  
 Mohegan Indian Tribe  
 Aroostook Band of Micmacs Indians  
 Houlton Band of Malaseet Indians  
 Passamaquoddy Tribe (Indian Township)  
 Passamaquoddy Tribe (Pleasant Point)  
 Penobscot Tribe  
 Mashpee Wampanoag Indian Tribal Council, Inc.  
 Wampanoag Tribe of Gay Head  
 Narragansett Indian Tribe

## Region 2: NY/NJ/PR/VI

Cayuga Nation  
 Oneida Nation  
 Onondaga Nation

Saint Regis Mohawk Tribe  
 Seneca Nation  
 Shinnecock Indian Nation  
 Tonawanda Band of Seneca Indians NY  
 Tuscarora Nation NY

## Region 3: Mid-Atlantic

Does not contain federally recognized tribes.

## Region 4: Southeast

Poarch Band of Creek Indians  
 Miccosukee Tribe of Indians  
 Seminole Tribe  
 Mississippi Band of Choctaw Indians  
 Catawba Indian Nation

### Region 5: Great Lakes

Pokagon Band of Potawatomi Indians  
 Bay Mills Indian Community  
 Grand Traverse Band of Ottawa and Chippewa Indians  
 Hannahville Indian Community  
 Huron Potwatomi, Inc  
 Inter Tribal Council of Michigan  
 Keweenaw Bay Indian Community  
 Lac Vieux Desert Band of Lake Superior Chippewa Indians  
 Little River Band of Ottawa Indians  
 Little Traverse Bay Bands of Odawa Indians  
 Match-E-Be-Nash-She-Wish Band of Pottawatomi Indians  
 Pokagon Band of Potawatomi Indians  
 Saginaw Chippewa Indian Tribe  
 Sault Ste. Marie Tribe of Chippewa Indians  
 Lower Sioux Indian Community  
 Minnesota Chippewa Tribe  
 Prairie Island Indian Community  
 Red Lake Band of Chippewa Indians  
 Shakopee Mdewakanton Sioux Community  
 Upper Sioux Community  
 Bad River Band of the Lake Superior Tribe of Chippewa Indians of the Bad River Reservation  
 Forest County Potawatomi Community  
 Ho-Chunk Nation  
 Lac Courte Oreilles Band of Lake Superior Chippewa Indians  
 Lac du Flambeau Band of Chippewa  
 Menominee Indian Tribe of Wisconsin  
 Oneida Tribe of Indians  
 Red Cliff Band of Lake Superior Chippewa Indians  
 St. Croix Chippewa Indians  
 Sokaogon Chippewa Community  
 Stockbridge Munsee Community

### Region 6: South Central

Chitimacha Tribe  
 Coushatta Tribe  
 Jena Band of Choctaw Indians  
 Tunica-Biloxi Indian Tribe  
 Absentee-Shawnee Tribe of Indians  
 Alabama-Quassarte Tribal Town  
 Apache Tribe  
 Caddo Nation  
 Cherokee Nation  
 Cheyenne-Arapaho Tribes  
 Chickasaw Nation  
 Choctaw Nation  
 Citizen Band Potawatomi Tribe

Comanche Nation  
 Delaware Nation  
 Delaware Tribes of Indians  
 Eastern Shawnee Tribe  
 Fort Still Apache Tribe  
 Iowa Tribe  
 Kaw Nation  
 Kialegee Tribal Town  
 Kickapoo Tribe  
 Kiowa Indian Tribe  
 Miami Tribe  
 Modoc Tribe  
 Muscogee (Creek) Nation  
 Osage Tribe  
 Ottawa Tribe  
 Otoe-Missouria Tribe of Indians  
 Pawnee Nation  
 Peoria Tribe of Indians  
 Ponca Tribe of Indians  
 Quapaw Tribe of Indians  
 Sac & Fox Nation  
 Seminole Nation  
 Seneca-Cayuga Tribe  
 Shawnee Tribe  
 Thlopthlocco Tribal Town  
 Tonkawa Tribe of Indians  
 United Keetoowah Band of Cherokee Indians  
 Wichita and Affiliated Tribes  
 (Wichita, Keechi, Waco, and Tawakonie)  
 Wyandotte Nation  
 Jicarilla Apache Nation  
 Mescalero Apache Tribe of the Mescalero Reservation  
 Navajo Nation  
 Ohkay Owingeh  
 Pueblo of Acoma  
 Pueblo of Cochiti  
 Pueblo of Isleta  
 Pueblo of Jemez  
 Pueblo of Laguna  
 Pueblo of Nambe  
 Pueblo of Picuris  
 Pueblo of Pojoaque  
 Pueblo of San Felipe  
 Pueblo of San Ildefonso  
 Pueblo of Sandia  
 Pueblo of Santa Ana  
 Pueblo of Santa Clara  
 Pueblo of Santo Domingo  
 Pueblo of Taos  
 Pueblo of Tesuque  
 Pueblo of Zia  
 Ute Mountain Tribe of the Ute Mountain Reservation

Zuni Tribe of the Zuni Reservation  
Alabama-Coushatta Tribe  
Kickapoo Traditional Tribe  
Ysleta Del Sur Pueblo

### Region 7: Midwest

Sac & Fox Tribe of the Mississippi  
Iowa Tribe  
Kickapoo Tribe of Indians of the Kickapoo  
Reservation  
Prairie Band of Potawatomi Nation  
Sac & Fox Nation of Missouri  
Omaha Tribe of Nebraska  
Ponca Tribe  
Santee Sioux Nation  
Winnebago Tribe

### Region 8: Mountains and Plains

Southern Ute Indian Tribe of the Southern Ute  
Reservation  
Ute Mountain Tribe of the Ute Mountain  
Reservation  
Assiniboine and Sioux Tribes of the Fort Peck Indian  
Reservation  
Blackfeet Tribe of the Blackfeet Indian Reservation  
Chippewa-Cree Indians of the Rocky Boy's  
Reservation  
Confederated Salish & Kootenai Tribes of the  
Flathead Reservation  
Crow Tribe  
Fort Belknap Indian Community of the Fort Belknap  
Reservation  
Northern Cheyenne Tribe of the Northern Cheyenne  
Indian Reservation  
Spirit Lake Tribe  
Standing Rock Sioux Tribe  
Three Affiliated Tribes of the Fort Berthold  
Reservation  
Turtle Mountain Band of Chippewa Indians  
Cheyenne River Sioux Tribe of the Cheyenne River  
Reservation  
Crow Creek Sioux Tribe of the Crow Creek  
Reservation  
Flandreau Santee Sioux Tribe  
Lower Brule Sioux Tribe of the Lower Brule  
Reservation  
Oglala Sioux Tribe of the Pine Ridge Reservation  
Rosebud Sioux Tribe of the Rosebud Indian  
Reservation  
Standing Rock Sioux Tribe  
Yankton Sioux Tribe

Sisseton-Wahpeton Oyate of the Lake Traverse  
Reservation  
Confederated Tribes of the Goshute Reservation  
Navajo Nation

Paiute Indian Tribe:

Cedar City Band of Paiutes  
Kanosh Band of Paiutes  
Koosharem Band of Paiutes  
Indian Peaks Band of Paiutes  
Shivwits Band of Paiutes

Skull Valley Band of Goshute Indians  
Ute Indian Tribe of the Uintah & Ouray Reservation  
Arapahoe Tribe of the Wind River Reservation  
Shoshone Tribe of the Wind River Reservation

### Region 9: Pacific Southwest

Ak Chin Indian Community of the Maricopa (Ak Chin)  
Indian Reservation  
Cocopah Indian Tribe  
Colorado River Indian Tribes of the Colorado River  
Indian Reservation  
Fort McDowell Yavapai Nation  
Fort Mojave Indian Tribe  
Gila River Indian Community of the Gila River Indian  
Reservation  
Havasupai Tribe of the Havasupai Reservation  
Hopi Tribe  
Hualapai Indian Tribe of the Hualapai Indian  
Reservation  
Kaibab Band of Paiute Indians of the Kaibab Indian  
Reservation  
Navajo Nation  
Pascua Yaqui Tribe  
Quechan Tribe of the Fort Yuma Indian Reservation  
Salt River Pima-Maricopa Indian Community of the  
Salt River Reservation  
San Carlos Apache Tribe of the San Carlos  
Reservation  
San Juan Southern Paiute Tribe  
Tohono O'odham Nation  
Tonto Apache Tribe  
White Mountain Apache Tribe of the Fort Apache  
Reservation  
Yavapai-Apache Nation of the Camp Verde Indian  
Reservation  
Yavapai-Prescott Tribe of the Yavapai Reservation  
Augustine Band of Cahuilla Indians  
(formerly the Augustine Band of Cahuilla Mission  
Indians of the Augustine Reservation)  
Alturas Indian Rancheria  
Augustine Band of Cahuilla Mission Indians of the  
Augustine Reservation  
Bear River Band of the Rohnerville Rancheria

Berry Creek Rancheria of Maidu Indians  
 Big Lagoon Rancheria  
 Big Pine Band of Owens Valley Paiute Shoshone  
 Indians of the Big Pine Reservation  
 Big Sandy Rancheria of Mono Indians  
 Big Valley Band of Pomo Indians of the Big Valley  
 Rancheria  
 Buena Vista Rancheria of Me-Wuk Indians  
 Fort Mojave Indian Tribe  
 Greenville Rancheria of Maidu Indians  
 Grindstone Indian Rancheria of Wintun-Wailaki  
 Indians  
 Guidiville Rancheria  
 Death Valley Timbia-Sha Shoshone Tribe  
 Dry Creek Rancheria Band of Pomo Indians  
 Enterprise Rancheria of Maidu Indians  
 Ewiiapaayp Band of Kumeyaay Indians  
 Federated Indians of Graton Rancheria  
 Fort Independence Indian Community of Paiute  
 Indians of the Fort Independence Reservation  
 Fort McDermitt Paiute and Shoshone Tribes of the  
 Fort McDermitt Indian Reservation  
 Greenville Rancheria  
 Habermatolel Pomo of Upper Lake  
 Hoopa Valley Tribe  
 Hopland Band of Pomo Indians  
 Iipay Nation Santa Ysabel  
 Inaja Band of Diegueno Missions Indians of the Inaja  
 and Cosmit Reservation.  
 Ione Band of Miwok Indians  
 Jackson Rancheria of Me-Wuk Indians  
 Jamul Indian Village  
 Karuk Tribe  
 Kashia Band of Pomo Indians of the Stewarts Point  
 Rancheria  
 Kewa Pueblo  
 La Jolla Band of Luiseno Mission Indians of the La  
 Jolla Reservation  
 La Posta Band of Diegueno Mission Indians of the La  
 Posta Indian Reservation  
 Los Coyotes Band of Cahuilla & Cupeno Indians of  
 the Los Coyotes Reservation  
 Lower Lake Rancheria  
 Lytton Rancheria  
 Manchester Band of Pomo Indians of the  
 Manchester-Point Arena Rancheria  
 Manzanita Band of Diegueno Mission Indians of the  
 Manzanita Reservation.  
 Mechoopda Indian Tribe of Chico Rancheria  
 Mesa Grande Band of Diegueno Mission Indians of  
 the Mesa Grande Reservation  
 Middletown Rancheria of Pomo Indians  
 Mooretown Rancheria of Maidu Indians

Morongo Band of Cahuilla Mission Indians of the  
 Morongo Reservation  
 Northfork Rancheria of Mono Indians  
 Paiute-Shoshone Indians of the Bishop Community  
 of the Bishop Colony  
 Paiute-Shoshone Indians of the Lone Pine  
 Community of the Lone Pine Reservation  
 Pala Band of Luiseno Mission Indians of the Pala  
 Reservation  
 Paskenta Band of Nomlaki Indians  
 Pauma Band of Luiseño Mission Indians of the  
 Pauma and Yuima Reservation  
 Pechanga Band of Luiseno Mission Indians of the  
 Pechanga Reservation  
 Picayune Rancheria of Chukchansi Indians  
 Pinoleville Pomo Nation  
 Pit River Tribe  
 (includes XL Ranch, Big Bend, Likely, Lookout,  
 Montgomery Creek and Roaring Creek Rancherias)  
 Potter Valley Tribe  
 Quartz Valley Indian Community of the Quartz Valley  
 Reservation  
 Quechan Tribe of the Fort Yuma Indian Reservation  
 Ramona Band or Village of Cahuilla Mission Indians  
 Redding Rancheria  
 Redwood Valley Rancheria of Pomo Indians  
 Resighini Rancheria  
 Rincon Band of Luiseno Mission Indians of the  
 Rincon Reservation  
 Robinson Rancheria of Pomo Indians  
 Round Valley Indian Tribes of the Round Valley  
 Reservation  
 San Manuel Band of Serrano Mission Indians of the  
 San Manuel Reservation  
 San Pasqual Band of Diegueno Mission Indians  
 Santa Rosa Indian Community of the Santa Rosa  
 Rancheria  
 Santa Rosa Band of Cahuilla Indians  
 (formerly the Santa Rosa Band of Cahuilla Mission  
 Indians of the Santa Rosa Reservation)  
 Santa Ynez Band of Chumash Mission Indians of the  
 Santa Ynez Reservation  
 Santa Ysabel Band of Diegueno Mission Indians of  
 the Santa Ysabel Reservation  
 Scotts Valley Band of Pomo Indians  
 Sherwood Valley Rancheria of Pomo Indians  
 Shingle Springs Band of Miwok Indians, Shingle  
 Springs Rancheria (Verona Tract)  
 Smith River Rancheria  
 Soboba Band of Luiseno Indians  
 Susanville Indian Rancheria  
 Sycuan Band of the Kumeyaay Nation  
 Table Mountain Rancheria  
 Torres Martinez Desert Cahuilla Indians

Tule River Indian Tribe of the Tule River Reservation  
 Tuolumne Band of Me-Wuk Indians of the Tuolumne Rancheria  
 Twenty- Nine Palms Band of Mission Indians  
 United Auburn Indian Community of the Auburn Rancheria  
 Utu Utu Gwaitu Paiute Tribe of the Benton Paiute Reservation  
 Washoe Tribe  
 (Carson Colony, Dresslerville Colony, Woodfords Community, Stewart Community, and Washoe Ranches)  
 Wiyot Tribe  
 Yocha Dehe Wintun Nation  
 Yurok Tribe of the Yurok Reservation  
 Confederated Tribes of the Goshute Reservation  
 Duckwater Shoshone Tribe of the Duckwater Reservation  
 Ely Shoshone Tribe  
 Fort McDermitt Paiute and Shoshone Tribes of the Fort McDermitt Indian Reservation  
 Fort Mojave Indian Tribe  
 Las Vegas Tribe of Paiute Indians of the Las Vegas Indian Colony  
 Lovelock Paiute Tribe of the Lovelock Indian Colony  
 Moapa Band of Paiute Indians of the Moapa River Indian Reservation  
 Paiute-Shoshone Tribe of the Fallon Reservation and Colony  
 Pyramid Lake Paiute Tribe of the Pyramid Lake Reservation  
 Reno-Sparks Indian Colony  
 Shoshone-Paiute Tribes of the Duck Valley Reservation  
 Summit Lake Paiute Tribe  
 Te-Moak Tribe of Western Shoshone Indians  
 Four constituent bands:  
     Battle Mountain Band  
     Elko Band  
     South Fork Band  
     Wells Band  
 Walker River Paiute Tribe of the Walker River Reservation  
 Washoe Tribe  
 (Carson Colony, Dresslerville Colony, Woodfords Community, Stewart Community, and Washoe Ranches)  
 Winnemucca Indian Colony  
 Yerington Paiute Tribe of the Yerington Colony & Campbell Ranch  
 Yomba Shoshone Tribe of the Yomba Reservation

## Region 10: Pacific Northwest

Coeur D'Alene Tribe of the Coeur D'Alene Reservation  
 Kootenai Tribe  
 Nez Perce Tribe  
 Northwestern Band of Shoshoni Nation (Washakie)  
 Shoshone -Bannock Tribes of the Fort Hall Reservation  
 Burns Paiute Tribe of the Burns Paiute Indian Colony  
 Confederated Tribes of the Coos, Lower Umpqua and Siuslaw Indians  
 Confederated Tribes of Grand Ronde Community  
 Confederated Tribes of Siletz Reservation  
 Confederated Tribes of the Umatilla Reservation  
 Confederated Tribes of the Warm Springs Reservation  
 Coquille Indian Tribe  
 Cow Creek Band of Umpqua Tribe of Indians  
 Fort McDermitt Paiute and Shoshone Tribes of the Fort McDermitt Indian Reservation,  
 Klamath Tribes  
 Confederated Tribes of the Chehalis  
 Confederated Tribes of the Colville Reservation  
 Confederated Tribes and Bands of the Yakama Nation  
 Cowlitz Indian Tribe  
 Hoh Indian Tribe of the Hoh Indian Reservation  
 Jamestown S'Klallam Tribe  
 Kalispel Indian Community of the Kalispel Reservation  
 Lower Elwha Tribal Community of the Lower Elwha Reservation  
 Lummi Tribe of the Lummi Reservation  
 Makah Indian Tribe of the Makah Indian Reservation  
 Muckleshoot Indian Tribe of the Muckleshoot Reservation  
 Nisqually Indian Tribe of the Nisqually Reservation  
 Nooksack Indian Tribe  
 Port Gamble Indian Community of the Port Gamble Reservation  
 Puyallup Tribe of the Puyallup Reservation  
 Quileute Tribe of the Quileute Reservation  
 Quinault Tribe of the Quinault Reservation  
 Samish Indian Tribe  
 Sauk-Suiattle Indian Tribe  
 Shoalwater Bay Tribe of the Shoalwater Bay Indian Reservation  
 Skokomish Indian Tribe of the Skokomish Reservation  
 Snoqualmie Tribe  
 Spokane Tribe of the Spokane Reservation  
 Squaxin Island Tribe of the Squaxin Island Reservation

Stillaguamish Tribe  
 Suquamish Indian Tribe of the Port Madison  
 Reservation  
 Swinomish Indians of the Swinomish Reservation  
 Tulalip Tribes of the Tulalip Reservation  
 Upper Skagit Indian Tribe  
 Agdaagux Tribe of the King Cove  
 Akiachak Native Community  
 Akiak Native Community  
 Alatna Village  
 Algaaciq Native Village (St. Mary's)  
 Allakaket Village  
 Angoon Community Association  
 Anvik Village  
 Arctic Village (formerly the Native Village of Venetie  
 Tribal Government)  
 Asa' carsarmiut Tribe  
 Atqasuk Village (Atkasook)  
 Beaver Village  
 Birch Creek Tribe  
 Central Council of the Tlingit & Haida Indian Tribes  
 Chalkyitsik Village  
 Cheesh-Na Tribe (formerly the Native Village of  
 Chistochina)  
 Chevak Native Village  
 Chickaloon Native Village  
 Chignik Bay Tribal Council (formerly the Native  
 Village of Chignik)  
 Chignik Lake Village  
 Chilkat Indian Village (Klukwan)  
 Chilkoot Indian Association (Haines)  
 Chinik Eskimo Community (Gologvin)  
 Chuloonawick Native Village  
 Circle Native Community  
 Craig Tribal Association  
 Curyung Tribal Council  
 Douglas Indian Association  
 Egegik Village  
 Eklutna Native Village  
 Ekwok Village  
 Emmonak Village  
 Evansville Village (aka Bettles Field)  
 Galena Village (aka Loudon Village)  
 Gulkana Village  
 Healy Lake Village  
 Holy Cross Village  
 Hoonah Indian Association  
 Hughes Village  
 Huslia Village  
 Hydaburg Cooperative Association  
 Igiugig Village  
 Inupiat Community of the Arctic Slope  
 Iqurmuit Traditional Council  
 Ivanoff Bay Village  
 Kaguyak Village  
 Kaktovik Village (aka Barter Island)  
 Kasigluk Traditional Elders Council  
 Kenaitze Indian Tribe  
 Ketchikan Indian Corporation  
 King Island Native Community  
 King Salmon Tribe  
 Klawock Cooperative Association  
 Knik Tribe  
 Kokhanok Village  
 Koyukuk Native Village  
 Levelock Village  
 Lime Village  
 Manley Hot Springs Village  
 Manokotak Village  
 McGrath Native Village  
 Native Village of Mekoryuk  
 Mentasta Traditional Council  
 Metlakatla Indian Community, Annette Island  
 Reserve  
 Naknek Native Village  
 Native Village of Afognak  
 Native Village of Akhliok  
 Native Village of Akutan  
 Native Village of Aleknagik  
 Native Village of Ambler  
 Native Village of Atka  
 Native Village of Barrow Inupiat Traditional  
 Government  
 Native Village of Belkofski  
 Native Village of Brevig Mission  
 Native Village of Buckland  
 Native Village of Cantwell  
 Native Village of Chenega (aka Chanega)  
 Native Village of Chignik Lagoon  
 Native Village of Chitina  
 Native Village of Chuathbaluk (Russian Mission,  
 Kuskokwim)  
 Native Village of Council  
 Native Village of Deering  
 Native Village of Diomedede (aka Inalik)  
 Native Village of Eagle  
 Native Village of Eek  
 Native Village of Ekuk  
 Native Village of Elim  
 Native Village of Eyak (Cordova)  
 Native Village of False Pass  
 Native Village of Fort Yukon  
 Native Village of Gakona  
 Native Village of Gambell  
 Native Village of Georgetown  
 Native Village of Goodnews Bay  
 Native Village of Hamilton  
 Native Village of Hooper Bay

Native Village of Kanatak  
 Native Village of Karluk  
 Native Village of Kiana  
 Native Village of Kipnuk  
 Native Village of Kivalina  
 Native Village of Kluti Kaah (aka Copper Center)  
 Native Village of Kobuk  
 Native Village of Kongiganak  
 Native Village of Kotzebue  
 Native Village of Koyuk  
 Native Village of Kwigillingok  
 Native Village of Kwinhagak (aka Quinhagak)  
 Native Village of Larsen Bay  
 Native Village of Marshall (aka Fortuna Ledge)  
 Native Village of Mary's Igloo  
 Native Village of Minto  
 Native Village of Nanwalek (aka English Bay)  
 Native Village of Napaimute  
 Native Village of Napakiak  
 Native Village of Napaskiak  
 Native Village of Nelson Lagoon  
 Native Village of Nightmute  
 Native Village of Nikolski  
 Native Village of Noatak  
 Native Village of Nuiqsut (aka Nooiksut)  
 Native Village of Nunam Iqua  
 Native Village of Nunapitchuk  
 Native Village of Ouzinkie  
 Native Village of Paimiut  
 Native Village of Perryville  
 Native Village of Pilot Point  
 Native Village of Pitka's Point  
 Native Village of Point Hope  
 Native Village of Point Lay  
 Native Village of Port Graham  
 Native Village of Port Heiden  
 Native Village of Port Lions  
 Native Village of Ruby  
 Native Village of Saint Michael  
 Native Village of Savoonga  
 Native Village of Scammon Bay  
 Native Village of Selawik  
 Native Village of Shaktoolik  
 Native Village of Shishmaref  
 Native Village of Shungnak  
 Native Villages of Stevens  
 Native Village of Tanacross  
 Native Village of Tanana  
 Native Village of Tatitlek  
 Native Village of Tazlina  
 Native Village of Teller  
 Native Village of Tetlin  
 Native Village of Tuntutuliak  
 Native Village of Tununak

Native Village of Tyonek  
 Native Village of Unalakleet  
 Native Village of Unga  
 Native Village of Venetie Tribal Government (Arctic Village and Village of Venetie)  
 Native Village of Wales  
 Native Village of White Mountain  
 Nenana Native Association  
 New Koliganek Village Council  
 New Stuyahok Village  
 Newhalen Village  
 Newtok Village  
 Nikolai Village  
 Ninilchik Village  
 Nome Eskimo Community  
 Nondalton Village  
 Noorvik Native Community  
 Northway Village  
 Nulato Village  
 Nunakuyarmiut Tribe  
 Organized Village of Grayling (aka Holikachuk)  
 Organized Village of Kake  
 Organized Village of Kasaan  
 Organized Village of Kwethluk  
 Organized Village of Saxman  
 Orutsararmuit Native Village (aka Bethel)  
 Oscarville Traditional Village  
 Pauloff Harbor Village  
 Pedro Bay Village  
 Petersburg Indian Association  
 Pilot Station Traditional Village  
 Platinum Traditional Village  
 Portage Creek Village (aka Ohgsenakale)  
 Pribilof Islands Aleut Communities of St. Paul & St. George Islands  
 Qagan Tayagungin Tribe of Sand Point Village  
 Qawalangin Tribe of Unalaska  
 Rampart Village  
 Saint George Island (Pribilof Islands Aleut Communities of St. Paul & St. George Islands)  
 Saint Paul Island (Pribilof Islands Aleut Communities of St. Paul & St. George Islands)  
 Seldovia Village Tribe  
 Shageluk Native Village  
 Sitka Tribe of Alaska  
 Skagway Village  
 South Naknek Village  
 Stebbins Community Association  
 Sun'aq Tribe of Kodiak  
 Takotna Village  
 Tangirnaq Native Village  
 Telida Village  
 Traditional Village of Togiak  
 Tuluksak Native Community

Twin Hills Village  
Ugashik Village  
Umkumiut Native Village  
Village of Alakanuk  
Village of Anaktuvuk Pass  
Village of Aniak  
Village of Atmautluak  
Village of Bill Moore's Slough  
Village of Chefornak
