

New Mexico Environment Department

- A few more things to keep in mind

Permits That May Be Required

- ✓ Solid Waste
 - ❖ How will any waste solid waste generated by the project be handled?
- ✓ Liquid Waste
 - ❖ Does the project need to handle liquid waste, will there be any employees onsite?

Permits That May Be Required

✓ Stormwater

- ❖ Is more than one acre of land disturbed or occupied?

Environmental Liability Renewable Energy Project

- Unless the renewable energy project contributes to contamination at the redeveloped or reclaimed site, there may be no liability for the project company
- Discuss liability with permittee/landowner
- If possible, get a “hold harmless agreement” with the permittee/landowner
