**Re: Dismissal of Administrative Complaints**

Dear Mr. Brittle:

This is to notify you and Don't Waste Arizona that the U.S. Environmental Protection Agency (EPA) Office of Civil Rights (OCR) is dismissing the above numbered administrative complaints. The complaints were filed on behalf of Hispanic residents living near Fisher Sand and Gravel, located on South 28<sup>th</sup> St. in Phoenix, AZ. The complaints allege that the Maricopa County Air Quality Department (MCAQD) violated Title VI of the Civil Rights Act of 1964, as amended (Title VI), 42 U.S.C. § 2000d *et seq.* and EPA's nondiscrimination regulations found at 40 C.F.R. Part 7.

Complaint number 04R-09-R9 alleged that MCAQD intentionally discriminated against Hispanic residents living near the Fisher Sand and Gravel facility by failing to impose penalties when it issued numerous Notices of Violations. It also claimed that this action created an adverse impact on the nearby Hispanic residents. These allegations specifically concerned the hot mix asphalt plant's activities at the facility, which also conducts sand and gravel operations.

Complaint number 06R-09-R9 alleged that MCAQD's failure to enforce a request for asphalt production records from the Fisher Sand and Gravel facility resulted in a discriminatory impact on the local Hispanic residents who reside adjacent to the facility. Specifically, the complaint stated that in June 2009, MCAQD requested production records for the asphalt

operations of the Fisher Sand and Gravel facility (hereinafter "facility"). The facility, however, did not provide the requested documents, despite being required to under its permit. MCAQD failed to enforce its request for these documents, resulting in an adverse disparate impact on the nearby Hispanic residents.

#### **Status of Asphalt Operations at the Fisher Sand and Gravel Facility**

In February 2010, OCR learned that Fisher Sand and Gravel, had ceased its asphalt operations at the 28<sup>th</sup> Street facility. This has been confirmed by staff in EPA's Region 9 office. While the sand and gravel production activities at the facilities remain ongoing, these were not the subject of these complaints.

#### **Decision**

OCR has completed its review of the allegations in your complaint. Because your allegations concern the Fisher Sand and Gravel asphalt activities, which are no longer operating, OCR has determined that your allegations are moot and are being dismissed.
