Protocol Title: A Study for Measurement of Potential Dermal and Inhalation Exposure During Manual Pouring of Two Solid Formulations Containing an Antimicrobial (AEA07)

If the AEATF-II study proposal AEA07 is revised as suggested in EPA's review and if the research is performed as described:

1. Is this research is likely to generate scientifically reliable data, useful for assessing the exposure of those who pour solid formulation antimicrobial pesticide products
2. Is the research likely to meet the applicable requirements of 40 CFR part 26, subparts K and L?
