

On This Day, January 12, 2006

Texas Commission on Environmental Quality
U.S. Environmental Protection Agency, Region 6

Present to

City of Fort Worth, Texas
James Avenue Service Center
Ready for Reuse Determination

In recognition of the U.S. Defense National Stockpile Center's efforts to investigate and, where needed, remediate the 25 acres of land formerly owned by the U.S. Federal Government and operated by the U.S. General Services Administration (GSA) as part of the Fort Worth Federal Center in Fort Worth, Texas (the "Property"), the Texas Commission on Environmental Quality (TCEQ) and the United States Environmental Protection Agency (EPA) Region 6 together have determined that the Property is Ready for Reuse. As documented in the Ready for Reuse Determination Letter of August 23, 2004, the Ready for Reuse Determination is an acknowledgment that environmental conditions on the Property are protective of human health and the environment, based on its planned use as the City of Fort Worth's new, state-of-the-art vehicle maintenance facility.
