

OBTAINING EPA TECHNICAL SUPPORT FOR SUPERFUND, RCRA, AND BROWNFIELDS SITES

EPA's Office of Research and Development (ORD) has five technical support centers (TSCs) that help to integrate science and technology into hazardous waste clean-up activities. These centers, located around the country, offer scientific expertise and services to EPA program and regional offices on site characterization, modeling, monitoring, assessment, and remediation.

Superfund and Technology Liaisons (STLs) are EPA scientists and engineers who are important links between regional staff and the TSCs. STLs in each region work with remedial project managers, corrective action staff, and on-scene coordinators to identify available ORD resources and specialized expertise to assist with specific clean-up sites, tasks or projects.

ORD'S FIVE TECHNICAL SUPPORT CENTERS:

- Ecological Risk Assessment Support Center**

Michael Kravitz: 513-569-7740 | kravitz.michael@epa.gov

Provides technical information and addresses scientific questions regarding ecological risk assessment at hazardous waste sites

- Engineering Technical Support Center**

John McKernan: 513-569-7415 | mckernan.john@epa.gov

Provides site-specific assistance on engineering and treatment issues of site cleanup; helps incorporate technology-based data needs and site-specific remedy options for site cleanup

- Groundwater Technical Support Center**

David Burden: 580-436-8606 | burden.david@epa.gov

Provides site-specific assistance on groundwater and subsurface contamination problems at waste sites; publishes issue papers on subsurface remediation and groundwater topics

- Site Characterization and Monitoring Technical Support Center**

Felicia Barnett 404-562-8659 | barnett.felicia@epa.gov

Provides site characterization assistance by supporting the use of cutting-edge methods and technologies for identifying contaminants, determining levels and concentrations, and identifying geographic extent

- Superfund Health Risk Technical Support Center**

Phillip Kaiser: 513-487-2143 | kaiser.jonathan-phillip@epa.gov

Beth Owens: 513-569-7241 | owens.beth@epa.gov

Provides technical support on exposure and toxicity risk issues; reviews exposure and toxicity factors and develops new and updated provisional peer-reviewed toxicity values

Superfund and Technology Liaison Contact Information

Region 1 – Boston, MA

Jan Szaro, 617-918-1316
szaro.jan@epa.gov

Region 2 – New York, NY

Diana Cutt, 212-637-4311
cutt.diana@epa.gov

Region 3 – Philadelphia, PA

Jonathan Essoka, 215-814-5774
essoka.jonathan@epa.gov

Region 4 – Atlanta, GA

Felicia Barnett, 404-562-8659
barnett.felicia@epa.gov

Region 5 – Chicago, IL

Charles Maurice, 312-886-6635
maurice.charles@epa.gov

Region 6 – Dallas, TX

Terry Burton, 214-665-7139
burton.terry@epa.gov

Region 7 – Kansas City, KS

Robert Weber, 913-551-7918
weber.robert@epa.gov

Region 8 – Denver, CO

Stephen Dyment, 303-312-7044
dymant.stephen@epa.gov

Region 9 – San Francisco, CA

Anna-Marie Cook, 415-972-3029
cook.anna-marie@epa.gov

Region 10 – Seattle, WA

Kira Lynch, 206-553-2144
lynch.kira@epa.gov
