Looks good to all of us. Hopefully EPA management will have no issues. I'll keep you posted on that.

Thanks.

**Subject:** EA Work Plan Appendix K

Paige,

Please see the attached updated Appendix K to the work plan to cover EA recycling revised as discussed. Also attached is a pdf of the DOT permit and a pdf of the crusher facility layout.

Please note that the change to the Crushing Schedule section where Dyno is planning to take two loads per week of the crushed material as it is processed. This is something that we have been working on behind the scenes with Dyno. If you have additional questions please feel free to let us know.

**Thanks,**
