

# Air Sensor

Measure · Learn · Share

The U.S. Environmental Protection Agency's Air Sensor Toolbox for Citizen Scientists provides information and guidance on new low-cost compact technologies for measuring air quality. Since citizens are interested in learning more about local air quality where they live, work and play, EPA scientists created the Toolbox to provide citizens resources to effectively collect, analyze, interpret, and communicate air quality data.

## Air Sensor Toolbox Resources

Air Sensor  
Guidebook

Sensor  
Evaluation  
Reports

Standard  
Operating  
Procedures for  
Emerging  
Technologies

Community Air  
Monitoring  
Training Videos

### Resources include information about:

Sampling methodologies

Generalized calibration/validation approaches

Measurement methods options

Data interpretation guidelines

Low-cost sensor performance information

...and more!
