40 CFR 63.9(b)(2) - Initial Notification Form

<u>Applicable Rule:</u> 40 CFR Part 63, Subpart HHHHH – National Emission Standards for Hazardous Air Pollutants for Miscellaneous Coating Manufacturing.

Please read the rule for detail on requirements and deadlines. Notification requirements are found in §63.8070 of Subpart HHHHH and §63.9 of the General Provisions as noted. *Please note that you are not required to use this form and may submit the required information in a letter. However, all required information must be submitted by the notification deadline of April 9, 2004.* Please print or type the following information for each source subject to the applicable rule mentioned above.

1a. Name and Address of Facility(40 CFR §63.9(b)(2)(i))			
Address		City	
County	State _		Zip
b. Facility ID (for example State ID or Title V)			
2a. Physical Location of Facility (if different fro (40 CFR §63.9(b)(2)(ii))	m 1a.)		
Address		City	
County	State _		Zip
3. Is the facility a Major Source or Area Source *(If area or synthetic minor, then this form does need to be completed) (40 CFR §63.9(b)(2)(v))		Major	Area*
a. Do you currently have or are you in the proce obtaining a federally enforceable permit limit fo *(If yes, please provide information below)		Yes*	No
4. Relevant Source Category and Compliance D (40 CFR §63.9(b)(2)(iii))	ate	Subpart HHHHH –	, 2006
5. Brief description of the major source and the source category. (40 CFR63.9(b)(2)(iv))	types o	f source(s) belonging	to the relevant

6. Signature

I certify that the information contained in this form to be knowledge.	e accurate and true to the best of my
Authorized Signature	
Typed or Printed Name of Signatory	
Title of Signatory	Date
Contact Information (Phone Number/E-Mail Address) _	

Please mail this completed form to both your State Air Pollution Control Office and your EPA Regional Office

Instructions

Questions 1&2. Facility Information (40 CFR §63.9(b)(2)(i-ii))

This question is self-explanatory – just include the name and address, including physical location, if different, of the facility.

Question 3. Is The Facility a Major Source? (40 CFR §63.9(b)(2)(v))

EPA defines a major source as any stationary source or group of stationary sources located within a contiguous area and under common control that emits or has the potential to emit considering controls, in the aggregate, at least 10 tons per year (tpy) or more of any single HAP or 25 tpy of any combination of HAP. A manufacturing facility is a major source of HAP either in and of itself, or because it is collocated with other sources of HAP, such that all facility sources combined constitute a major source. As Subpart HHHHH, National Emission Standards for Hazardous Air Pollutants: Miscellaneous Coating Manufacturing only applies to major sources, true minors or area sources do not need to complete and submit this form. Similarly, if you have obtained a synthetic minor permit, you would be a minor source not subject to this NESHAP. If, however, you are in the process of obtaining such, please include the relevant information at Question 3a.

Question 3a. Synthetic Minor Sources

This question is intended to let the States know that a facility is in the process of obtaining synthetic minor status permitted limits. If a facility is a major source and is in the process or even considering taking emission caps to gain synthetic minor status, this should be noted on the initial notification in order to ensure the State are aware of this activity. Major sources can only become synthetic minors before the compliance date of December 11, 2006 under Subpart HHHHH – so it is very important that members intending to change their status let the States know as soon as possible this intention.

Question 4. Identification of Relevant Source Categories (40 CFR §63.9(b)(2)(iii))

The attached form provides the relevant standard – Subpart HHHHH and compliance date for such, however, this form can be used for any standard a source is subject too as long as it is modified appropriately to identify such. Members should review the applicable standards to identify which MACTs their operations may also be subject to. Descriptions of all the source categories can be found at EPA's website at: http://www.epa.gov/ttn/atw/mactfnlalph.html

Question 5. Description of the Major Source, Identification of Emission Points and HAPs Emitted (40 CFR §63.9(b)(2)(iv))

The intent of this question is to give the States a brief description of the operations, and the type of emission units belonging to the relevant source category and the HAPs emitted under this category.

An example of a brief description might be – The XYZ facility is an architectural coatings manufacturing facility, subject to the formulation/blending NESHAP category – Subpart HHHHH. Types of emission units are storage tanks, process tanks, equipment leaks, wastewater operations and transfer operations. Types of HAPs emitted are toluene, xylene, glycol ethers, methyl ethyl ketone, and methyl isobutyl ketone.

Question 6. Signature

This section must be signed by an authorized representative of the member company that is responsible for the overall operation of the facility. 40 CFR 70.2 defines a responsible official as the president, secretary, treasurer, or vice president of the company or the affected sources designated representative under title V or part 70 activities.

MAILING ADDRESSES

Please mail the completed form to both your State Air Pollution Control Office and your EPA Regional Office (see addresses provided below):

EPA Region I (Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, Vermont), Director, Air, Pesticides and Toxics Division, J.F.K. Federal Building, Boston, MA 02203-2211.

EPA Region II (New Jersey, New York, Puerto Rico, Virgin Islands), Director, Air and Waste Management Division, 26 Federal Plaza, New York, NY 10278.

EPA Region III (Delaware, District of Columbia, Maryland, Pennsylvania, Virginia, West Virginia), Director, Air Protection Division, 1650 Arch Street, Philadelphia, PA 19103.

EPA Region IV (Alabama, Florida, Georgia, Kentucky, Mississippi, North Carolina, South Carolina, Tennessee), Director, Air, Pesticides and Toxics Management Division, Atlanta Federal Center, 61 Forsyth Street, Atlanta, GA 30303-3104.

EPA Region V (Illinois, Indiana, Michigan, Minnesota, Ohio, Wisconsin), Director, Air and Radiation Division, 77 West Jackson Blvd., Chicago, IL 60604-3507.

EPA Region VI (Arkansas, Louisiana, New Mexico, Oklahoma, Texas), Director, Air, Pesticides and Toxics, 1445 Ross Avenue, Dallas, TX 75202-2733.

EPA Region VII (Iowa, Kansas, Missouri, Nebraska), Director, Air and Toxics Division, 726 Minnesota Avenue, Kansas City, KS 66101.

EPA Region VIII (Colorado, Montana, North Dakota, South Dakota, Utah, Wyoming), Director, Air and Toxics Division, 999 18th Street, 1 Denver Place, Suite 500, Denver, CO 80202-2405.

EPA Region IX (Arizona, California, Hawaii, Nevada, American Samoa, Guam), Director, Air and Toxics Division, 75 Hawthorne Street, San Francisco, CA 94105.

EPA Region X (Alaska, Idaho, Oregon, Washington), Director, Office of Air Quality, 1200 Sixth Avenue (OAQ-107), Seattle, WA 98101.
