Subject: WVDEP's Comments regarding EPA's Proposal to 'overlist'

Attachments: Comments on EPA Partial Approval and Partial Disapproval of WV 2012 Section 303(d) list.pdf

Bill,

Please find attached comments from DEP regarding EPA's proposed action to add 255 additional streams to the 2012 Section 303(d) list.

Feel free to contact me for additional information regarding the recommended changes (7 removals; one addition; and 4 revisions to length) identified in the table on page 2 of attached or the twelve streams previously identified as needing to be delisted because newer biological data demonstrate attainment.

Thanks, John

John Wirts

Assistant Director - Watershed Assessment Branch

WVDEP Division of Water and Waste Management
