MEMORANDUM

SUBJECT: Interpretation of 40 CFR §52.21 Federal Regulations
for the Prevention of Significant Air Quality
Deterioration (PSD)

FROM: Director
Division of Stationary Source Enforcement

TO: David Kee, Chief
Air Enforcement Branch

This is in response to your memorandum dated February 3, 1977, concerning the regulations for the Prevention of Significant Deterioration.

We have reviewed your memorandum and concur in your interpretation of the regulations, that every source included in the nineteen listed must undergo new source review to assure that an air quality increment will not be violated in a location outside that area designated pervasively exceeding the National Ambient Air Quality Standards for the pollutant in question.

If you have any additional questions or comments do not hesitate to contact me.

Edward E. Reich
