

# Data Certification in AQS

Chris Chapman, US EPA  
National Air Quality Conference  
Atlanta, Georgia  
August 13, 2014

National Ambient Air Monitoring Conference  
August 2014

## Data Certification: The Basics

- Formal statement attesting to ambient data completeness and accuracy
- Submitted by monitoring agencies to EPA on annual basis
- Process that combines a required action followed by a discretionary EPA review

## Preliminaries: What should a certifying agency do?

1. Review the Certifying Agency role assignments:
  - a) Run the AQS Monitor Description Report – Will show all Agency Roles for each monitor (AMP390)
  - b) Compare against Monitoring Network Plan
2. Use AQS (Batch MD transaction or Maintain Monitor) to correct any discrepancies.
  - a) Assumption: The monitor belongs to the Screening Group for the certifying agency or an agency that is subordinate to them.

## The Procedure: What does an agency do?

1. Conduct and complete ambient air quality monitoring and QA as per 40 CFR Part 58 and submit all relevant data to AQS.
2. Run the Data Certification Report (AMP600) for your Certifying Agency.
  - a) This will calculate a recommended certification flag for each monitor-year based on Part 58 criteria and display the results for all monitors and PQAOs associated with the Certifying Agency.

# Requesting a Data Certification Report

Standard Report Criteria Selection (North Carolina Edas) AMP600

### Protocol Criteria

Pollutant Type	Parameter Code
CRITERIA	

### Date Criteria

Start Date YYYY	End Date YYYY
2012	2012

### Screening Group

Generate Report

## The Procedure – Part 2: Data Review

3. Review the certification report. For 'N' recommendations:
  - a) Has any ambient monitoring data not yet been submitted?
  - b) Has any QA/QC data (e.g. Precision and Accuracy transactions) not been submitted?
  - c) Should any ambient monitoring data be invalidated and removed from AQS based on QA/QC results?
4. Make corrections to AQS data as needed.
5. If you are perplexed about a result on the AMP600 and want background data, run an AMP256 (Data Quality Indicator) Report.
6. Rerun certification report and verify results are final.

### Certification Report Summary

**Certification Year:** 2012  
**Certifying Agency:** Maine D.E.P. Bureau Of Air Quality Control, Augusta (0635)

<u>Parameter Name</u>	<u>Code</u>	<u>Number of Monitors</u>	<u>Monitors Certified</u>	<u>Monitors Not Certified</u>
PM2.5 - Local Conditions	88101	12	8	4

<u>PQAO Name</u>	<u>PQAO Code</u>	<u>QAPP Approval Date</u>	<u>TSA Date</u>
Maine D.E.P. Bureau Of Air Quality Control, Augusta	0635	10/15/11	09/27/12

<b>Summary of 'N' flags for all pollutants:</b>				<b>AQS Recommended Certification</b>	<b>Cert. Agency Requested Certification</b>	<b>Reason for Recommendation Against Certification</b>
<u>PQAO</u>	<u>Code</u>	<u>AQS Site-ID</u>	<u>POC</u>	<u>Parameter</u>	<u>Reason for Recommendation Against Certification</u>	
0635	88101	23-003-0014	1	N	Annual Summary completeness < 70%.	
0635	88101	23-005-0015	1	N	Monitors not assigned to valid Monitor Type	

### Certification Report for Particulate Matter

**Certifying Year:** 2012  
**Certifying Agency:** Maine D.E.P. Bureau Of Air Quality Control, Augusta (0635)

**Parameter:** PM2.5 - Local Conditions (88101)  
**PQAO Name:** Maine D.E.P. Bureau Of Air Quality Control, Augusta (0635)  
**Quality Assurance Project Plan Approval Date:**

#### Collocation Summary

## The Procedure – Part 3: Indicating request in AQS:

1. Access the Certification Form in AQS
2. Query the data for your certifying agency / year.
  - a) Can subset data by pollutant
3. Use the “shortcut” button at the bottom of the form, “Initialize monitoring agency requested values”
4. If you want to request a change to the recommended value:
  - a) Scroll to the line to be changed
  - b) Change the “Monitoring Agency Request” column value
  - c) Enter the justification in the Monitoring Agency Comment
5. When you are done, click save.

## The Procedure – Part 4: Reports for Certification Package

1. Run the AMP600 report one last time to include with certification letter.
  - a) Report will show both AQS recommended value and Certifying Agency requested value, and Certifying Agency comments when different.
2. Run the AMP450NC report for non-criteria pollutants.
