Dear Mr. Conway:

In order to apply for a United States Environmental Protection Agency (EPA) permit for an underground injection well, EPA regulations require a determination that the injection well will not impact any properties listed or eligible for listing in the National Register of Historic Places. The well is/will be located as shown on the enclosed attachment. Please review this well location to make a determination in this matter. Please contact our office in writing with your determination so that we may forward the information to EPA.

If you have any questions or requires any additional information regarding this location, please feel free to call me at (____) ____ - ____.

Sincerely yours,

Enclosure
