Dear Ms. Graul:

I would like to provide an update on the status of your Information Quality Guidelines Request for Reconsideration (#14001A), regarding the Toxicological Review of Trichloroethylene in Support of Summary Information on the Integrated Risk Information System (IRIS). Within the next two weeks, we plan to convene an Executive Panel of EPA senior leaders to make a decision about the Agency's response to your information quality concerns. After a decision is made, we will develop a formal draft response for the Executive Panel's review and concurrence.

We anticipate that a final response will be sent to you within 90 business days (February 21, 2016), if not sooner.

Sincerely,

A handwritten signature in blue ink that reads "Monica D. Jones".
