

EPA Review under Clean Water Act Section 404

Congressional Request: 113 HR 3547 – Water: Ecosystems

Fiscal Year 2015–June

Section I. of the following table lists the Corps of Engineers Individual CWA Standard Permit public notices received by EPA in June 2015 and all comment letters on individual CWA standard permit public notices issued by EPA in June 2015. Section II. of the following table lists all comment letters on Corps of Engineers Individual Standard Permit public notices issued by EPA between October 1, 2013 and May 31, 2015. Where the Corps has made a final permit decision, it is documented below and will not appear in subsequent reports. During this reporting period, EPA received 171 Individual standard CWA permit public notices, performed a detailed review of 80%, and subsequently provided comment letters on 7% of them. EPA is not the only commenter on Corps public notices. Other federal and state agencies and the public routinely provide comments to the Corps. Of the new public notices in Section I, the Corps has issued 22 permits, 0 permits were denied, 14 applications were withdrawn, and 135 are still being processed.

DA Number	Project Name Tracked by EPA	County	State	EPA Review	Date(s) Received by EPA ²	Date of Comment Letter(s) ²	Days under review by EPA ^{2,3}	Final Decision by the Corps	Corps Decision Date ⁴

1 Standard permits are those individual permits which have been processed through application of the Corps' public interest review procedures (33 CFR 325) and EPA's Section 404(b)(1) Guidelines (40 CFR 230), including public notice and receipt of comments. Standard permits do not include letters of permission, regional permits, nationwide permits, or programmatic permits.

2 Information only tracked for those projects receiving comment letters from EPA.

3 Reflects the cumulative total calendar days for EPA review and development of formal comment letters. The Corps public comment period for standard permit public notices can be as short as 15 or as long as 45 days, not including extensions.

4 Applications can be withdrawn throughout the review process for various reasons. For example, some applications are withdrawn at the request of an applicant who no longer wishes to pursue the project; some are withdrawn after the district requests additional information and the applicant fails to respond within a prescribed time (most commonly 30 to 60 days); and some are withdrawn because the project is modified to avoid all impacts and a permit is no longer required. Some projects are not finalized as SPs because the impacts were further avoided or minimized during the review process and the project now qualifies for a general permit (e.g., Nationwide, Regional or Programmatic General Permit). If this has occurred, notes are provided in the "Final Decision by the Corps" column.

*Comment period extended and two letters sent by EPA.

**Informal comment period extension due to staff changes.

***Comment period was informally extended pending further information from applicant.

**** Comment period extended due to staff changes at Corps then comment period extended to include review of mitigation plan.
