

Partnering around Mutual Priorities...

Salvation Army (Kroc) Center & park & solar & living shoreline on Harrison Ave Landfill

**(proposed) Living Shoreline, Wetlands Creation
Habitat Restoration & Community Access**

(proposed) Park & Solar

Constructed Wetlands

Bioretention Basins

**Kroc Community Center
120,000 ft² facility & 24-acre campus**

Funding:

- SRP HDSRF \$22 million
- SRP Publicly-Funded \$4.1 million
- EPA Brownfields \$1.4 million
- EPA 319H Living Shoreline \$323,000

Green Remediation Elements:

- On-site waste management
- Use of Local Dredge Material for Cap
- Alternate (Permeable/Vegetative) Cap
- Reuse of site materials (e.g. concrete)

Green Infrastructure Elements:

- Permeable / Water infiltration Cap
- ~1.1-acre constructed wetlands
- 2000 feet bioretention basins
- 25 million gal/year stormwater management
- no connection to adjacent CSO...**
- Planned restoration of riparian corridor
