Session Description

This webcast is the second in a series of webcasts that will discuss the federally required implementation procedures of a pretreatment program [40 CFR Part 403 and NPDES]. This webcast will discuss the regulatory background of the POTW's requirement to conduct compliance inspections at industrial facilities, required compliance inspection frequencies for the different IU classifications (nonsignificant categorical industrial users, middle-tier categorical industrial users, categorical industrial users with monitoring waivers, and other significant industrial users), procedures for conducting compliance inspections, inspector responsibilities and qualifications, and procedures for handling confidential information.

Speakers

Jan Pickrel, National Pretreatment Coordinator,
EPA Office of Wastewater Management, Water Permits Division

Jennifer Dodd, Tennessee Department of Environmental
Conservation
