

Permitting Steps under the Tailoring Rule

• <u>Step 1</u>: Source already subject to PSD "anyway"

(tpy CO_2e)

New source: NA Modification: 75,000

• <u>Step 2</u>: Sources already subject to PSD (tpy CO₂e) New source: 100,000 Modification: 75,000

- <u>Step 3</u>: Implementation of potential additional phase-in and streamlining options
- <u>5-year study</u>: To examine GHG permitting for smaller sources
- Implementation of rule based on 5-year study
