Federal Property Management Regulations Temporary Regulation E-83**To:** Heads of Federal agencies**Subject:** Cancellation of obsolete delegations of authority

1. *Purpose.* This regulation cancels obsolete delegations of authority.

2. *Effective date.* This regulation is effective upon publication in the *Federal Register*.

3. *Expiration date.* This regulation expires 30 days after publication in the *Federal Register*.

4. *Background.*

a. By FPMR Temp. Reg. E-10 (32 FR 10532, July 18, 1967), the Administrator of General Services delegated authority to the Secretary of Commerce for the operation of an automatic data processing service center. The purpose was to provide the Department of Commerce with an intra-agency facility for automatic data processing at the National Bureau of Standards. Agencies are now not required to obtain a delegation of authority from GSA to operate intra-agency data processing service centers or to share their excess automatic data processing resources with other agencies under the ADP Sharing Program. Authority delegated to the Secretary of Commerce is no longer necessary.

b. By FPMR Temp. Reg. E-22 (37 FR 5147, March 10, 1972), the Administrator of General Services delegated authority to the Secretary of the Air Force for the operation of the Federal Data Processing Center for ADP Simulation. The purpose was to meet the automatic data processing simulation requirements of Federal agencies as a least-cost alternative. Upon issuance of FPMR Temp. Reg. E-22, Supp. 1 (38 FR 15884, June 18, 1973) the name of the Center was changed to the Federal Computer Performance Evaluation and Simulation
