

**UNITED STATES ENVIRONMENTAL PROTECTION AGENCY**

REGION 4  
ATLANTA FEDERAL CENTER  
61 FORSYTH STREET  
ATLANTA, GEORGIA 30303-8960

**FEB - 6 2013**

The Honorable Rick Scott  
Governor, State of Florida  
The Capitol  
400 South Monroe Street  
Tallahassee, Florida 32399-0001

Dear Governor Scott:

Thank you for your staff's recommendations dated June 13, 2011, and updated on November 28, 2011, on air quality designations for the State of Florida for the 2010 revision to the primary National Ambient Air Quality Standard for sulfur dioxide (SO<sub>2</sub>). Reducing levels of SO<sub>2</sub> pollution is an important part of the U. S. Environmental Protection Agency's commitment to a clean, healthy environment. Exposure to SO<sub>2</sub> can cause a range of adverse health effects, including narrowing of the airways which can cause difficulty breathing and increased asthma symptoms. This letter is to notify you of the EPA's preliminary intentions regarding your recommended designations.

On June 3, 2010, the EPA strengthened the health-based or "primary" standard for SO<sub>2</sub> by establishing a standard for 1-hour average SO<sub>2</sub> concentrations at a level of 75 parts per billion. The Clean Air Act requires the EPA to complete the initial designations process within two years of promulgating a new or revised standard. If the Administrator has insufficient information to make these designations, the EPA has the authority to extend the designation process by up to one year. On July 27, 2012, the EPA announced that it had insufficient information to complete the designations for the 1-hour SO<sub>2</sub> standard within two years and extended the designations deadline to June 3, 2013.

At this time, the EPA is proceeding with designating as nonattainment most areas in locations where existing monitoring data from 2009-2011 indicate violations of the 1-hour SO<sub>2</sub> standard. The EPA intends to address the designations for all other areas in separate future actions. With input from a diverse group of stakeholders, the EPA has developed a comprehensive implementation strategy for these future actions that focuses resources on identifying and addressing unhealthy levels of SO<sub>2</sub>. The strategy is available at: <http://www.epa.gov/airquality/sulfurdioxide/implement.html>. The EPA will continue to work closely with you and our other partners at the state, tribal and local levels to ensure health-protective, commonsense implementation of the 1-hour SO<sub>2</sub> standard.

Consistent with the Clean Air Act, after carefully considering Florida's recommendations and all of the associated technical information for the 2010 SO<sub>2</sub> standard, including the most recent air quality data from 2009-2011, the EPA intends to designate as nonattainment the following areas, including the following counties or portions of counties:

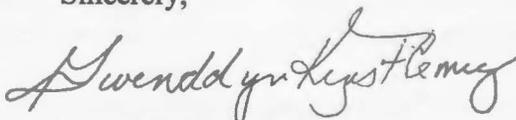

<u>Nonattainment Area</u>	<u>County</u>
Hillsborough County, FL	Hillsborough County (p)
Nassau County, FL	Nassau County (p)

(p) indicates portion of county

The EPA will continue to work with state officials regarding the appropriate boundaries for the areas in Florida. If Florida has additional information that you would like the EPA to consider, please submit it to us by April 8, 2013. We also will be publishing a notice in the Federal Register announcing a 30-day period for the public to provide input on EPA's preliminary designation decisions regarding the areas that we would designate as nonattainment based on monitoring data. We intend to promulgate these designations for areas with monitored violations of the 2010 SO<sub>2</sub> standard by June 2013. We are not yet prepared to propose designations action or seek public comment on other areas.

We look forward to a continued dialogue with you and your staff as we work together to implement the 2010 primary SO<sub>2</sub> standard. For additional information regarding initial designations on the SO<sub>2</sub> standard, please visit our website at [www.epa.gov/so2designations](http://www.epa.gov/so2designations). Should you have any questions, please do not hesitate to call me at 404-562-8357 or Beverly Banister of my staff at 404-562-9326.

Sincerely,

Gwendolyn Keyes Fleming  
Regional Administrator

Enclosure

cc: Herschel T. Vinyard Jr.  
Secretary, Florida Department of  
Environmental Protection (FDEP)

Brian Accardo  
Director, Division of Air Resources Management, FDEP

Peter Hessling  
Administrator, Pinellas County Air Quality Division

Daniela Banu  
Director, Broward County Air Quality Division

Vincent A. Seibold  
Director, City of Jacksonville Air and Water Quality Division

H. Patrick Wong  
Director, Miami-Dade County Air Quality Management Division

Jerry Campbell  
Director, Hillsborough County Air Management Division

Joe Dittell  
Director, Orange County Environmental Protection Division

James E. Stormer  
Administrator, Palm Beach County Public Health Department

Gina McCarthy, Assistant Administrator for Air and Radiation

Stephen D. Page, Director, Office of Air Quality Planning and Standards
