

## EnviroAtlas Update Bulletin | January 2016

*U.S. EPA Office of Research and Development sent this bulletin at 01/13/2016 10:50 AM EST*

Quarterly Update | January 2016

## EnviroAtlas Update Bulletin

Keep up with the latest in EnviroAtlas news

### New Year, New Look!

Notice anything different lately? If you have visited our website in the past month or two, you may have noticed some changes...like a brand new site! We are excited to have a new website with a wealth of information for our users. Here are a few things we thought you might want to know:

#### IN THIS UPDATE

#### Bringing new features to you!

- Updated Website
- HIA and EnviroAtlas
- New ATtILA Toolbox

#### Did You Hear?

- Our web address changed! You can now find us at [www.epa.gov/enviroatlas](http://www.epa.gov/enviroatlas).
- Your old bookmarks may not work, so make sure to update them.
- We have a new way to search through our extensive collection of data layers and access fact sheets. [Try out our dynamic fact sheet matrix](#).

## HIA & EnviroAtlas

Interested in health impact assessment (HIA)? We have a new online guide for using EnviroAtlas in HIAs.

[View the guide »](#)

## ATtILA Toolbox

ATtILA is an easy-to-use Esri ArcGIS toolbox created by EPA that calculates many commonly used landscape metrics. Previous versions of ATtILA have been widely used globally. A much anticipated new version is now available for download. [Read more or download »](#)

The Obama Administration directed Federal agencies to incorporate natural infrastructure and ecosystem services into Federal planning and decision-making. [Read more »](#)

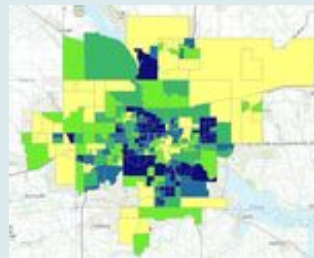

## Quarterly Updates

This is the first of scheduled quarterly updates that we will be sending to EnviroAtlas users. We have many exciting plans for 2016, so stay tuned!

## We Want to Hear from You

We are always interested in hearing your feedback and how you are using EnviroAtlas. [Contact us](#) or tweet us @EPAREsearch and use #EnviroAtlas.

## New Communities Coming Soon
