

## Top 30 K-12 Schools Partner List (as of July 1, 2014)

The Top 30 K-12 Schools list represents the largest green power users among K-12 school partners within the Green Power Partnership. The combined green power use of these organizations amounts to nearly 185 million kilowatt-hours of green power annually, which is equivalent to avoiding the carbon dioxide emissions from the electricity use of nearly 18,000 average American homes each year.

Annual Green Power Usage (kWh)	GP % of Total Electricity Use*	Green Power Resources	Providers (listed in descending order by kWh supplied to Partner)	State
1. Chicago Public Scho	ools			
107,709,620	20%	Solar	Element Markets°, On-site Generation	IL
2. Austin (TX) Indepen	dent School Distric	t

\*Reflects the amount of green power as a percentage of total electricity use. Partners choosing to purchase green power in an amount exceeding 100 percent of their U.S. organization-wide electricity use are listed as such.

'Indicates Provider is selling Partner a third-party certified green power product. For more information on third-party certification, visit <a href="http://www.epa.gov/greenpower/buygp/certified.htm">http://www.epa.gov/greenpower/buygp/certified.htm</a>.
