ORDER DISMISSING PETITION FOR REVIEW OF RCRA PERMIT

In a letter dated July 9, 1985, EPA, Region V notified the Chief Judicial Officer that Chemical Waste Management, Inc., Springfield, Ohio, withdrew its application for a RCRA permit for its facility located at 3106 Snyder-Domer Road in Springfield, thereby mooting out petitioner's request that the Administrator review certain aspects of the permit. ^{1/} Accordingly, the petition for review is dismissed.

So ordered.

Lee M. Thomas
Administrator

Dated: October 9, 1985

^{1/} Petitioner is Ms. Laura Kaffenbarger, Chairwoman of an organization called CF/Water located at 6470 Terre Haute Road, Urbana, Ohio 43078. In a four page hand-written petition, Ms. Kaffenbarger primarily asserts that despite the permit's statement to the contrary, no agreement exists between the facility and the German Township Fire Department. (The permit evidently states that such an agreement exists and specifies that, should a fire or release of hazardous wastes occur at the facility, the Fire Department will assume the task of coordinating the responses by the Fremont Police Department, the Clark County Sheriff's Office, and the local hospital.) Moreover, Ms. Kaffenbarger contends that the German Township Fire Department does not have adequate "fire-fighting tools to respond to an emergency involving specific hazardous materials."

CERTIFICATE OF SERVICE
