

EPA PUBLIC NOTICE

Administrative Record Available for Public Review **Reedsville Foundry Site**

The U.S. Environmental Protection Agency announces the availability of the Administrative Record (AR) for emergency removal activities being conducted at the **Reedsville Scattered Foundry site**, which includes three locations in Preston County where high levels of lead in on-site soils and sediment have been found to cause a potential, immediate threat to public health and the environment. The AR contains documents about cleanup activities conducted at the site. EPA is now removing and properly disposing of lead-contaminated soils to ensure public health and the environment remain protected.

Cleanup documents can be viewed at the following locations:

1. **Online at www.epa.gov/arweb** - Select "WV", then select site name.
2. **Environmental Protection Agency, Region 3 office**
