**Summary:** Previously, the EPA set standards to reduce organic air emissions from certain hazardous waste management activities to levels that are protective of human health and the environment (59 FR 62896, December 6, 1994; see Revision Checklist 154 for a complete history). The standards were amended by the December 8, 1997 rule (62 FR 64636-64671, Revision Checklist 163), in response to public comments and inquiries. Today's amendments clarify certain regulatory text and reinstate certain regulatory provisions that were previously contained in the rules and later inadvertently removed.

**State Authorization:** This rule is placed in RCRA Cluster IX. The State modification deadline is July 1, 2000 (or July 1, 2001 if a State statutory change is necessary). All changes go into effect immediately because this rule was promulgated under HSWA authorities. Both interim and final authorization are available. Interim authorization expires January 1, 2003.

The State Revision Application must include applicable regulations, AG statement addendum, Revision Checklist 177, other associated checklists and other application materials, i.e., a program description and an MOA, as determined by the Regional office.

**Attorney General's Statement Entry:** The entry at Subsection XV (W) in the Model Revision Attorney General's Statement should be replaced with the following revised entry:
