

## EPA Projections Show 99% of U.S. Counties with Monitors Would Meet the Annual Fine Particle Health Standard of $12 \mu\text{g}/\text{m}^3$ in 2020

 7 counties are projected not to meet  $12.0 \mu\text{g}/\text{m}^3$  in 2020.

All of these are already under requirements to reduce  $\text{PM}_{2.5}$ .
