

**Dawn King, Microbiologist, in EPA's National Exposure Research Laboratory**

Systems Exposure Division

Mailing Address

[king.dawn@epa.gov](mailto:king.dawn@epa.gov)

**Area of Expertise:** Developed immunological techniques to detect target organisms and toxins by immunoassay and flow cytometry using drinking water, recreational water, and various other matrices. Development and optimization of methods to detect microbial contaminants in water by real-time PCR. Optimization of the U.S. EPA Method 1623: Cryptosporidium and Giardia in water by Filtration/IMS/FA. Conducting training to assist commercial laboratories to utilize Method 1623.

**Select Publications:**

**Education:**

- B.S. Microbiology, Miami University, 2002

**Professional Experience:**

- Microbiologist, USEPA, ORD, NERL, MCEARD, MERB, Cincinnati, OH 2002-Present
- Research Microbiologist, USEPA, OW, TSC, Cincinnati, OH 2002-2002
