

Sean A. Woznicki, Postdoctoral Environmental Engineer, in EPA's National Exposure Research Laboratory

Systems Exposure Division

Mailing Address

woznicki.sean@epa.gov

Area of Expertise: My areas of expertise are hydrology and watershed modeling. Current research focuses include projecting the impacts of land use change on water resources and drinking water treatment costs, evaluating the impacts of green infrastructure on neighborhood scale hydrology and water quality, and validation of green infrastructure modeling tools. My research interests include GIS, climate and land use change impacts assessment on water resources, ecological restoration, ecosystem services, green infrastructure/best management practices/LID, and applications of soft computing in environmental models.

Education:

- Michigan State University, PhD, 2015, Biosystems and Agricultural Engineering

- Michigan State University, MS, 2011, Biosystems and Agricultural Engineering
- Michigan State University, BS, 2009, Biosystems and Agricultural Engineering

Professional Experience:

- Postdoctoral Environmental Engineer, MRLC Director, USEPA, NERL, 07/2016-Present
