PREPARATION OF THE DRAFT PERMIT:

The U.S. Environmental Protection Agency (EPA) and the Massachusetts Department of Environmental Protection (MassDEP) have cooperated in the development of a draft permit for the above identified facility. The effluent limits and permit conditions imposed have been drafted to assure compliance with the Clean Water Act, 33 U.S.C. sections 1251 et seq., the Massachusetts Clean Waters Act, M.G.L. c. 21, §§ 26-53, 314 CMR 3.00 and State Surface Water Quality Standards at 314 CMR 4.00. EPA has formally requested that the State certify this draft permit pursuant to Section 401 of the Clean Water Act and expects that the draft permit will be certified.

Public notice of this draft permit was provided in the *Old Colony Memorial* newspaper (Plymouth, MA) and sent to the permittee and other interested parties by mail and electronic mail on May 18, 2016. While that original public notice indicated that at least thirty (30) days' advance notice would be provided for any public hearing, in accordance with 40 C.F.R. § 124.10(b)(2), the version of the notice mistakenly posted to EPA's website on May 18, 2016 erroneously noted that at least sixty (60) days' notice would be provided. The version posted on EPA's website has since been replaced with the original notice. Accordingly, this public hearing notice provides at least a thirty (30) day notice prior to the scheduled hearing.
