

EPA REVIEWS CLEANUP

Revere Chemical Superfund Site

The U.S. Environmental Protection Agency (EPA) is conducting its fifth Five-Year Review of the Revere Chemical Co. Superfund Site located in Bucks County. EPA inspects sites regularly to ensure that cleanups conducted remain fully protective of public health and the environment. EPA's prior review of the site, conducted in 2011, determined that the remedy (site security and stormwater management systems, plus cap) are working as designed. The results of the current review will be available September 2016.

To access results of the review (starting Sept. 2016):
