<u>Document No.</u>	<u>Description</u>
I-A-1	Background information--proposed national emission standards for hazardous air pollutants: asbestos, beryllium, mercury, EPA:OAP, December 1971.
I-A-2	Comprehensive study of specified air pollution sources to assess the economic impact of air quality standards--asbestos, beryllium, mercury: vol. II, EPA contract no. 68-02-0088, Research Triangle Institute, August 1972
I-A-3	Final report on development of an analytical method for chrysotile and amphibole asbestos in spraycoat and cementitious materials, Battelle Columbus Laboratories, EPA Contract No. 68-02-0230, April 30, 1974.
I-A-4	Investigation of fugitive dust--volume I: sources, emissions, and control, EPA:OAQPS, EPA-450/3-74-036a, June 1974.
I-A-5	Investigation of fugitive dust--volume II, control strategy and regulatory approach, EPA:OAQPS, EPA-450/3-74-036-b, June 1974.
I-A-6	Identification and assessment of asbestos emissions from incidental sources of asbestos, EPA:ORD, EPA-650/2-74-087, September 1974.
I-A-7	Asbestos fiber atlas, EPA:ORD, EPA-650/2-75-036, April 1975.
I-A-8	Field testing of control concepts for abatement of emissions from asbestos manufacturing waste, IIT Research Institute, EPA contract no. 68-02-1872, monthly progress report no. IITRI-C6338-1, May 1975.
I-A-9	Asbestos contamination of the air in public buildings, EPA:OAQPS, EPA-450/3-76-004, October 1975, 70 pp.
I-A-10	EPA demolition and renovation inspection procedures, EPA:SSD, October 1975.
I-A-11	Asbestos in the water supplies of the ten regional cities; part I, W. C. McCrone Associates, Inc., prepared for EPA:OTS, EPA contract no. 68-01-2690, EPA 560/6-76-017, April 1976, 60 pp.

Background Information

<u>Document No.</u>	<u>Description</u>
I-I-1	A comparison of asbestos fibers with synthetic crystals known as "whiskers," James S. Walker, Tibor Zoltai, undated.
I-I-2	A tentative method for determination of asbestos fiber in ambient air, W. M. Henry, C. W. Melton, and R. E. Heffelfinger, undated.
I-I-3	Amphibole fiber concentration determination for a series of community air samples: use of X-ray diffraction to supplement electron microscope analysis, P. M. Cook et al., Electron microscopy and X-ray applications, undated.
I-I-4	Amphibole mineral fiber analysis by electron microscopy: comparison of sample preparation procedures, Electron microscopy and X-ray applications, undated.
I-I-5	ASTM definition of industrial talc, Descriptive Mineralogy, undated.
I-I-6	Study of the effect of asbestos waste piles, on ambient air, C. F. Harwood, M. Stinson, and P. Ase, undated.
I-I-7	Brochure, Recommended work practices--fabrication and use of asbestos friction materials, Asbestos Information Association, undated.
I-I-8	Brochure, Recommended work practices--molding and fabrication of asbestos-containing plastic products, Asbestos Information Association, undated.
I-I-9	Brochure, Recommended work practices--shop and field fabrication of asbestos sheet products, Asbestos Information Association, undated.
I-I-10	Brochure, Recommended work practices--use and handling of asbestos textile products, Asbestos Information Association, undated.

I-I-11	Cleaning gases at high temperatures: abstract, W. Strauss, and W. M. Thring, Abstracts from current literature, undated.
I-I-12	Control and safety guide--No. 3--stripping and fitting of asbestos-containing thermal insulation materials, The Asbestosis Research Council, undated.
I-I-13	Control of asbestos fiber emissions from industrial and commercial sources, W. B. Reitze et al., undated.
I-I-14	Critique of "Provisional Methodology Manual on Electron Microscope Measurement of Airborne Asbestos Concentrations," R. J. Lee and D. M. Scott, U.S. Steel Corporation, undated.
I-I-15	Demolition of buildings, Chicago Department of Environmental Control, undated.
I-I-16	Structural integrity during fire; chapter 5, In: fire protection handbook, 15th ed., National Fire Protection Association, undated.
I-I-17	Developments in dust sampling and counting techniques in the asbestos industry, Turner Brothers Asbestos Company, Limited, and Asbestosis Research Council, undated.
I-I-18	Development of a method for sampling and determination of asbestos in ambient air (draft), R. E. Heffelfinger et al., undated.
I-I-19	Development of improved asbestos reinforced phenolic insulating composites (optimization of physical properties as a function of molding technique and post cure conditions, L. M. Hedges, undated.
I-I-20	Evaluation of automobile brake drum cleaning methods, A study of asbestos exposures, Thomas Lemmons et al., undated.
I-I-21	High gradient magnetic separation, Henry Kolm, Jonn Oberteuffer, and David Kelland, undated.
