EPA Compliance Monitoring Data Portal (CMDP) CROMERR Application Cover Sheet

If you are a state intending to implement CMDP, please complete this form or the generic CROMERR application cover sheet. Email this form as well as any other required information to cromerr@epa.gov Completion of a CROMERR system checklist is not required for CMDP applications; submit only a cover sheet and, if applicable, provide additional documentation as noted below.

NOTE: Submission of this form constitutes a formal request for the CROMERR program to revise your EPA-authorized drinking water program for electronic reporting. However, submission of this form and approval by EPA does not require a state to implement CMDP or any other electronic reporting under its EPA-authorized drinking water program.

		Fax:	Secondary Phone:

CROMERR technical or business process aspects of this CMDP implementation:

Please attest by checking the box below:

☐ No customizations to CROMERR business processes or functionality of CMDP have been made for this implementation.

NOTE: If you have customized anything, please contact cromerr@epa.gov to discuss before submitting this form.

Certifying Official (Attorney General (AG) certification):

Please check one:

☐ Certification of sufficient legal authority to implement electronic reporting is included with this application along with copies of relevant laws and regulations establishing legal authority.

☐ Certification not needed. I have contacted EPA to confirm that an approved certification is on file with EPA from a previous CROMERR application for drinking water reporting. Further, I have consulted with my legal counsel and/or AG office to confirm that it is acceptable to use this certification.

☐ Certifcation not needed. The table at http://www.epa.gov/cromerr/cromerr-program-announcements-and-initiatives/ indicates that EPA considers state-level agencies in my state to be covered by a broadly applicable, previously approved AG certification. I have consulted with my legal counsel and/or AG office to confirm that it is acceptable to use this.
