<sup>2</sup> EPA Director Hyde’s December 12, 2012 letter approved this issue’s resolution based on a statement by the Wisconsin Attorney General that cited Wisconsin’s existing, specific authority addressing the issue. However, subsequently the Wisconsin Court of Appeals invalidated the Attorney General Statement’s resolution of Issue 5 (Judicial Review), raising concern about the statement’s efficacy to resolve WI LAR issues generally (2014 WI App 61). Given the Wisconsin Court of Appeals’ ruling, EPA again reviewed this issue and determined that further action is now necessary to ensure that the issue is resolved.

<sup>3</sup> EPA is reviewing Midwest Environmental Defense Center (MEDC) v. WDNR, Dane County Case No. 15-CV-2409. In the case, WDNR stipulated that it would not approve any “other environmental programs” under Wis. Admin. Code § NR 216.42(6) and “authorized local programs” under Wis. Admin. Code § NR 216.415(4). If warranted by the review, EPA will change the status of Issues 24 and/or 25 to provisionally addressed, requiring future rulemaking.
