

-- Public Notice --
U.S. Environmental Protection Agency

Kanawha River Site

Kanawha and Putnam Counties, WV

**--Engineering Evaluation and Cost Analysis
(EE/CA) Released--**

The United States Environmental Protection Agency (EPA) has released the EE/CA presenting the Preferred Alternative for addressing dioxin contaminated sediment in the Kanawha River between RM 31.1 (Winfield Locks and Dam) and RM 45.5 (confluence of the Coal River).

The Preferred Alternative proposed for the Site is identified in the EE/CA as Alternative 4 - limited armored capping of sediment, monitored natural recovery and institutional controls.

If you would like to review the full EE/CA and associated documentation, the documents can be viewed on EPA's website at: <https://semspub.epa.gov/src/document/03/2231291> or in person at the Cross Lanes Library - 5449 Big Tyler Road Cross Lanes, West Virginia 25313.

EPA Seeks Public Comment!

The EE/CA **public comment period** is from August 25, 2016 to September 24, 2016. Comments can be submitted by mail or e-mail and must be date-stamped **no later than midnight on September 24, 2016**; send to:
