GI Green Infrastructure Wizard

What is Green Infrastructure?

Green infrastructure uses vegetation, soils, and natural processes to manage water and create healthier urban environments.

What is the Problem?

EPA has hundreds of websites containing thousands of documents, tools, reports, and more. Finding the information you want can be daunting and slow.

What is GIWiz?

GIWiz is an interactive web application that connects communities to EPA Green Infrastructure tools & resources.

What Does GIWiz Do?

GIWiz provides users with customized reports containing the EPA tools and resources they select, direct links, and overview information about each.

## Use GIWiz Now!

How GIWiz Works

1. Quick Links

In just two clicks, you can find green infrastructure tools and resources from a range of categories including general information, community specific projects, and ideas for designing and assessing projects.

2. Explore

Choose from a variety of categories and attributes to identify resources that meet your specific needs and interests. Select different combinations of categories and attributes to get only the results you want. In both Quick Links and Explore, you can download your report as a PDF for future use.
