MATERIALS TRANSFER AGREEMENT

Provider:

U.S. Environmental Protection Agency (EPA)
Office of Research and Development (ORD)
National Center for Computational Toxicology (NCCT)

Recipient:

Waters Technologies Corporation Research Material should be sent to: Waters Corporation, 34 Maple Street, Milford, MA-01757 Attn: Gareth Cleland (508-482-3506)

1a. Provider agrees to transfer to Recipient's Investigator named below the following Research Material:

Chemicals and Materials

- A list identifying selected chemicals from the ToxCast chemical library to be tested by Recipient ("Recipient Investigator") using the Recipient's Technology. This list will be provided in electronic format and contain chemical structures and chemical identifiers (e.g. DSSTOX ID, chemical names and synonyms)
- A copy of the current ToxCast chemical library, or subset, consisting of chemical samples prepared as solution in dimethyl sulfoxide at a concentration of 20 millimolar. Additional chemicals may be provided in the future concurrent with expansion of the ToxCast chemical library.
- ☐ Samples of nanomaterials and characterization data on said materials

Data and Summary Information

ш	In vitro assay data derived from the ToxCast Program. This data is derived from
	chemicals analyzed using a variety of high throughput assay techniques. Below this i
	referred to as the "ToxCast Data".
П	In vivo whole animal toxicology data summary data derived from the EDA Toxicology

In vivo whole animal	toxicology da	ata summary d	ata derived	from the E	PA Toxicology	y
Reference Database (ToxRefDB).	Below this is	referred to a	is the "Tox	RefDB Data".	

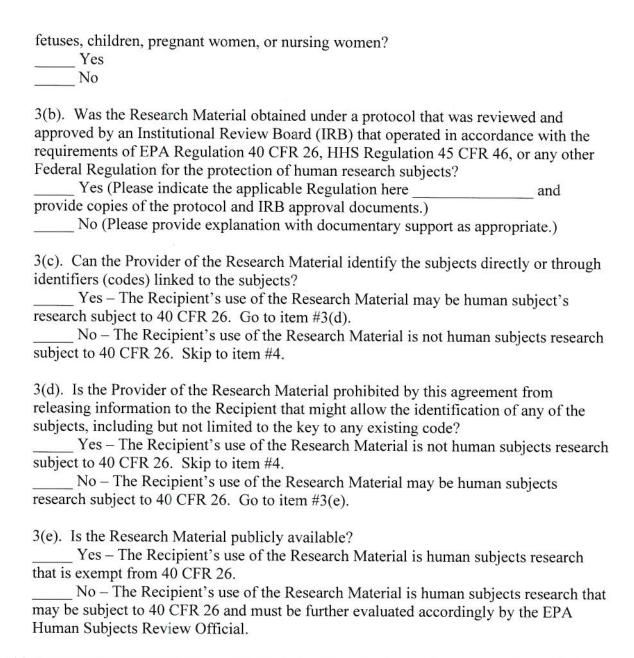

☐ Summary descriptions of the individual data sets.

3(a). Does the Research Material include specimens or data derived or collected from

subjects?

Yes – Go to item #3(a).

X No – Skip to item #4.

- 4. This Research Material will be used by Recipient Investigator solely in connection with the following research project ("Research Project") described with specificity as follows:
 - The materials will be used for the generation of mass spectrometry data to perform compound identification and analysis.

Short Title: Waters MassSpec

Date Last Saved: November 2, 2016

- A copy of the experimental data will be made available to NCCT in Waters binary file format for the purpose of internal hosting and analysis.
- Recipient shall be free to include the Results in a chemical compound structure library to be used for both non-commercial and commercial purposes.
- 5. In all oral presentations or written publications concerning the Research Project, Recipient will acknowledge Provider's contribution of this Research Material unless requested otherwise. To the extent permitted by law, Recipient agrees to treat as confidential, any of Provider's written information about this Research Material that is stamped "CONFIDENTIAL" for a period of three (3) years from the date of its disclosure to recipient. The foregoing shall not apply to information that is or becomes publicly available or which is disclosed to Recipient without a confidentiality obligation or which is independently developed by Recipient without reference to the Research Material. Any oral disclosures from Provider to Recipient which Provider wishes to be treated as confidential shall be identified as being Confidential at the time of the disclosure and by written notice delivered to Recipient within thirty (30) days after the date of the oral disclosure. Recipient may publish or otherwise publicly disclose the Results of the Research Project, but if Provider has given Confidential information to Recipient, such public disclosure may be made only after Provider has had thirty (30) days to review the proposed disclosure to determine if it includes any Confidential information, to the extent such review period is permitted by law.
- 6. This Research Material represents a significant investment on the part of Provider and is considered proprietary to Provider. Recipient's investigator therefore agrees to retain control over this Research Material and further agrees not to transfer the Research Material to other people not under his/her direct supervision without advance written approval of Provider; provided however, Recipient may disclose Provider's Research Material to its and its affiliates' employees, representatives, directors, and officers. Provider reserves the right to distribute the Research Material to others and to use it for its own purposes. When the Research Project is completed, the Research Material will be returned to the Provider or disposed, if directed by Provider.
- 7. This Research Material is provided as a service to the research community. It is being supplied to Recipient with no warranties, express or implied, including any warranty of merchantability or fitness for a particular purpose. Provider makes no representations that the use of the Research Material will not infringe any patent or proprietary rights of third parties. Provider represents that it has the right to provide the Research Materials to Recipient hereunder. RECIPIENT MAKES NO OTHER AND DISCLAIMS ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, AND DISCLAIMS ALL LIABILITY ARISING FROM OR IN

Date Last Saved: November 2, 2016

RELATION TO ANY TESTING, ANALYSIS OR REPORTS PROVIDED UNDER THIS AGREEMENT.

- 8. Recipient shall retain title to any patent or other intellectual property rights in inventions relating to the Technology or made by its employees in the course of the Research Project. . Recipient shall retain a worldwide, royalty-free, nonexclusive license to use the Results for both internal and commercial purposes.
- 9. When Provider is the EPA: Recipient agrees not to claim, infer, or imply endorsement by the Government of the United States of America (hereinafter referred to as "Government") of the Research Project, the institution or personnel conducting the Research Project or any resulting product(s). EPA will not be liable to Recipient for any claims or damages arising from Recipient's use of the Research Material.
- 10. When Recipient is the EPA: Provider will not be liable to EPA for any claims or damages arising from EPA's use of the Research Material.
- 11. The Provider shall have the right to terminate this Agreement at any time if Recipient breaches any of the terms of this Agreement. Upon termination, Recipient shall return to the Provider all unused portions of the Research Materials.
- 12. Will EPA develop any products or services from information or materials provided by the Recipient?

x_	Yes – go to item A
	No – skip to #13 (next clause)

Item A: The EPA has a long history of applying principles of quality assurance/quality control to all technical work conducted by or for the Agency (CIO 2106: USEPA Quality Policy). Given EPA is receiving analytical screening data and will use the data for Agency purposes, the Recipient is required to provide EPA with documentation such as a quality manual, describing their organization's quality system. In lieu of such documentation, Standard Operating Protocols for compound handling and the assays performed are acceptable or documentation showing third party accreditation to a relevant standard and scope is also acceptable for documenting an organization's quality system. EPA requirements for quality management plans can be found at this URL: http://www.epa.gov/quality/qa_docs.html
