Subject: Arizona SO₂ Information for the Data Requirements Rule

Dear Ms. Adams:

The Arizona Department of Environmental Quality is submitting the modeling reports required by the SO₂ Data Requirements Rule (DRR) for characterizing air quality around SO₂ emission sources emitting 2,000 tons per year or more. ADEQ submitted modeling protocols to EPA Region 9 for review on July 1, 2016, and they were approved by email on December 5, 2016. These reports are due on January 13, 2016.

The enclosed modeling reports present the results of the modeling conducted in accordance with the approved modeling protocols. The areas modeled are listed in the following table:

FACILITY NAME	ATTACHMENT	MODEL RESULT
Arizona Public Service Cholla Generating Station	Attachment 1	Attainment of the 2010 SO ₂ NAAQS.
Tucson Electric Power Co.- Springerville Generating Station	Attachment 2	Attainment of the 2010 SO ₂ NAAQS.
Arizona Electric Power Cooperative – Apache Generating Station	Attachment 3	Attainment of the 2010 SO ₂ NAAQS.

A CD of the SO₂ Technical Assistance Documents is enclosed along with hard copies of the reports.

If you have any questions regarding this submittal, please contact Mike Sonenberg, P.E., Technical Analysis Unit Supervisor, at (602) 771- 4106 or Sonenberg.Mike@azdeq.gov.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Timothy S. Franquist', with a stylized flourish at the end.

Timothy S. Franquist, Director
ADEQ Air Quality Division
