**RE: Pompton Lakes Works Site – Pompton Lake Study Area  
Permit Module I – Supplement - Corrective Action Requirements  
Draft Pompton Lake Study Area Corrective Measures Implementation  
Work Plan (CMI WP) Review of Chemours Response to EPA Comments**

Dear Mr. Epps:

The United States Environmental Protection Agency (EPA) has completed its review of the March 11, 2016 "*Chemours Response to Comments Corrective Measures Implementation Work Plan*" submitted by The Chemours Company (Chemours) and has the following comments.

1. The draft CMI WP is conditionally approved pursuant to revisions to the draft CMI WP in accordance with the EPA response to the Chemours March 11, 2016 correspondence attached with this letter - ("*EPA Review: Chemours Response to Comments Corrective Measures Implementation Work Plan*".)
2. EPA designation of "Conditionally Accepted" in the "*EPA Review: Chemours Response to Comments Corrective Measures Implementation Work Plan*" and EPA's associated text with that designation represent EPA's revisions that Chemours should make in the final revised CMI WP based on follow-up discussions between EPA and Chemours.
3. EPA is working with the United States Fish & Wildlife Service to address EPA comment #91 regarding informal consultation to address potential impacts to listed species. Since the outcome of the informal consultation can impact the overall implementation schedule, EPA understands that the schedule submitted with the revised CMI WP is subject to further change.
4. Pursuant to the RCRA HSWA Permit Modified Compliance Schedule (Section B) dated May 4, 2010; Chemours should address EPA's comments and submit the revised CMI WP no later than 10 business days from receipt of this correspondence.

Should you have any questions or require further clarification on EPA's comments, please do not hesitate to contact me at 212-637-4426 or at [katz.ira-perry@epa.gov](mailto:katz.ira-perry@epa.gov).

Sincerely,

A handwritten signature in black ink, appearing to read "Perry Katz", with a long horizontal flourish extending to the right.

Perry Katz, Project Manager  
New Jersey Remediation Branch
