Mr. Corey Kurjian  
Environmental Specialist  
Division of Air Pollution Control  
Northeast District Office  
Ohio Environmental Protection Agency  
2110 East Aurora Road  
Twinsburg, Ohio 44087

Dear Mr. Kurjian:

Re: Ashtabula Plant (FAC ID #02-04-01-00200) – Permanent Shutdown of Boiler #7 (OEPA #B008), Package Boiler #2 (OEPA #B009), Paved and Unpaved Roadways and Parking Areas (OEPA #F001), Storage Piles (OEPA #F002), Rail Car Unloading (OEPA F004), and Various Insignificant Sources (Excluding Z001, a 335 hp Diesel-Powered Emergency Fire Pump, and Z006, a 50 hp Emergency Air Compressor)

In accordance with OAC 3745-77-08 (H) (1) (a) FirstEnergy Generation, LLC is notifying the Agency of the permanent shutdown of the Ashtabula Plant's boiler #7 (OEPA #B008) effective April 16, 2015. Package Boiler #2 (OEPA #B009), paved and unpaved roadways and parking areas (OEPA #F001), storage piles (OEPA #F002), rail car unloading (OEPA #F004), and various insignificant sources (excluding Z001, a 335 hp diesel-powered emergency fire pump, and Z006, a 50 hp emergency air compressor) effective December 17, 2015.

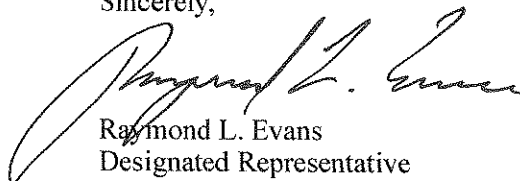

As required by OAC 3745-77-08 (H) (3) the sources will be included on the fourth quarter and final semiannual reports of 2015, along with the annual compliance certification for 2015.

Ashtabula Plant will no longer be a Title V source with the shutdown of the above sources.

Please do not hesitate to contact Robert E. Williams II of our staff at (330) 436-1424 should you have any concerns regarding this matter.

*I certify that, based on information and belief formed after reasonable inquiry, the statements in this document are, true, accurate, and complete.*

Sincerely,

  
Raymond L. Evans
