Re: Supplement to Application Memo

Dear Mr. Curry:

On May 1, 2015, Tim Kent, Environmental Director and Craig Kreman, Assistant Environmental Director of the Quapaw Tribe of Oklahoma (Tribe) Environmental Office met with several members of your Air Section staff (as well as Office of General Counsel) via conference call in regards to the Tribe's request of treatment-in-a-similar-manner-as-a-state (TAS) eligibility to administer various provisions under the Clean Air Act (the Act).

As a result of the discussions during this conference call with EPA Region 6 Air Section staff, the tribe believes its authority to regulate air quality (§ 49.7(a)(3)) stems from its establishment of the Quapaw Tribe Environmental Protection Commission and its authority to enforce the laws of the Quapaw Tribe regarding the environment (Quapaw Tribe Resolution #61194A, as signed and dated June 11, 1994).

As part of Section 3.A. **Geographical Area** (§ 49.7(a)(3)(i)), the tribe would like to make clear that it only seeks TAS, at this time, on land that is of 100% tribal trust status. A map attached depicts tracts of land, which are 100% tribal trust. A listing of the land ownership (including legal description, acreage, and ownership interest for each tract in trust) within the tribe's jurisdictional area is attached.

As part of Section 3.B. **Statement of tribe's Legal Counsel of the Basis for the tribe's Assertion of Authority** (§ 49.7(a)(3)(ii)), the tribe would like to make clear that the first paragraph in this section shall state "The State of the Tribe's Legal Counsel (attached as **Appendix C**) includes support documentation that provides historical context for the tribe's position on the boundaries of the Quapaw Tribe of Oklahoma." Any reference to **Appendix B** in this section shall be dismissed.

As some of the tribe's trust land exists in the State of Kansas (EPA Region 7), the tribe would also like to include this land in the TAS application at this time. The map, and the list of tribal tracts, will provide the documentation necessary for the tribe's trust land in the State of Kansas and its inclusion in this TAS application.

The Tribe has submitted, in the past, a similar application under Section 319 of the Clean Water Act, in which it was determined by EPA that the tribe can receive funding under the above mentioned section of the Clean Water Act.

Thank you for your time and consideration of the Quapaw Tribe's application for TAS eligibility. Please do not hesitate to call our office at (918) 542-1853 or email Tim Kent at [tkent@quapawtribe.com](mailto:tkent@quapawtribe.com) with any questions or concerns you may have concerning this letter.

Sincerely,

John Berrey, Chairman  
Quapaw Tribe of Oklahoma
