

Draft U.S. GHG Inventory Available for Public Review

The U.S. EPA Landfill Methane Outreach Program (LMOP) is providing information to its stakeholders about **EPA's Inventory of U.S. Greenhouse Gas Emissions and Sinks (Inventory)**, an annual report that tracks U.S. greenhouse gas emissions and sinks by source category and economic sector, going back to 1990. Municipal solid waste landfills are one of the covered sources and methane is one of the gases included in the report.

Per a recent announcement in the Federal Register [[FRL 9959-29-OAR](#)], the **draft 1990-2015 Inventory is available for review and public comment**. Information about the Inventory and the **draft report files** are available at <https://www.epa.gov/ghgemissions/inventory-us-greenhouse-gas-emissions-and-sinks>.

To **ensure your comments are considered** for the final version of this Inventory [to be released in April 2017], please submit them by **March 17, 2017**. Comments can be submitted electronically to GHGInventory@epa.gov. More information about submitting comments is available online at <https://www.epa.gov/ghgemissions/how-submit-comment-draft-us-greenhouse-gas-inventory-report-1990-2015>. Comments received after the deadline are still welcome and will be considered for the next edition of the Inventory.

To request removal from this email list, please reply to this message. For further information or questions about LMOP, please do not reply to this email message, but rather visit the [LMOP website](#). Thank you.
