

Community Update #31

Pompton Lakes Study Area

Pompton Lakes, New Jersey

Upland Soil Areas Excavation/Dredging

Community Update

January 2017

EPA CLEANUP ACTIVITIES

Basic Site Information

The Upland Soil Areas excavation is complete with the exception of one small area (Area A1) totaling approximately 20 cubic yards (CY). Mechanical dredging of approximately 19,300 CY of impacted sediment (containing mercury/lead/other metals) in Area A and the Island Area is in progress.

This is EPA's 31st update to inform the community of the progress of activities related to the portion of the Pompton Lakes Study Area known as the Upland Soil Areas and the 3 acres of the lake (designated Area A and the Island Area) that will be mechanically dredged. The work is being performed by The Chemours Company FC, LLC. with EPA/NJDEP oversight.

ACTIVITIES—WEEK OF JANUARY 2nd

- ◆ No additional transport/disposal of impacted material this week.
- ◆ Transported/disposed 1,949 loads of impacted material excavated soil/dredged sediment) a/o December 22nd.
- ◆ Excavation of soil at Upland Soil Area A1 complete except for that portion of soil near sewer pipe.
- ◆ Continued electrical work to support 2017 dredging activities
- ◆ Continued perimeter monitoring—data on website: <http://www.pomptonlakesworks.com/pompton-lake-project/environmental-monitoring/>
- ◆ No exceedances of dust/mercury vapor/(turbidity) action levels during monitoring associated with site activities

UPCOMING ACTIVITIES—WEEK OF JANUARY 9th

- ◆ Continue to treat/discharge water from site operations
- ◆ Initiate reconfiguration of site, including equipment/electrical work/on-site haul road in preparation of 2017 dredging work

NOTES:

- ◆ Dredging work scheduled for 2016 has been completed
- ◆ Remaining work includes removal of a small volume of soil in Upland Soil Area A1 and ecological layer placement in the Island Area/Area A. This work will be completed during the 2017 dredging season.
- ◆ With no further soil excavation/dredging occurring, turbidity and air monitoring have been suspended until the start of the 2017 dredging season.
- ◆ A small work crew will be on- and off-site preparing the site for the 2017 dredging season.
