About the Watershed Academy

The Watershed Academy is a focal point in EPA's Office of Water for providing training and information on implementing watershed approaches. The Academy sponsors Webcasts on various watershed planning and restoration topics and provides online distance learning modules through the Watershed Academy Web.

Watershed Academy Webcasts

- Free Webcasts
- Available 24-7
- "Hot" watershed topics with expert speakers
- Participate in live Webcasts or download archived seminars
- Convenient online training

www.epa.gov/watershedacademy

FREE – Easy Access – Timely Topics – Expert Speakers – Archives Available 24-7!

EPA's free Webcasts provide training and information for busy watershed practitioners like you. Anywhere in the world, you can have this valuable resource at your fingertips.

These 2-hour Web seminars help watershed organizations, agencies, municipalities, and private industry create more sustainable communities using a comprehensive watershed approach.

Our successful Webcasts offer you these benefits:

- Get the latest training from today's top watershed experts.
- No cost or hassle for travel.
- Access from home, work or wherever you want.
- All Webcasts are archived and available ANYTIME to download and view.

Start your training today at:
www.epa.gov/watershedacademy

How do I register for upcoming Webcasts?

- Go to www.epa.gov/watershedacademy for a list of upcoming Webcasts.
- Click on the link to register for the upcoming seminar.
- Then follow the instructions.

Each Webcast includes a Web-based slide presentation with companion audio. You can elect to participate either by telephone or streaming audio through the Internet. The registration page provides links to various media players and lets you check your computer's capabilities. Question-and-answer periods offer participant interaction with the instructors.

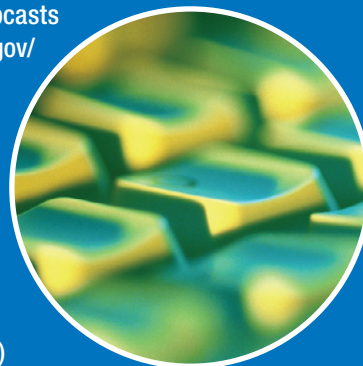

Registration is on a first-come, first-served basis and opens approximately one week prior to each seminar.

How do I access past Webcasts?

Archives of previous Webcasts are posted at www.epa.gov/watershedacademy and available at your convenience anytime!!

Like the live training classes, the archives include:

- Presentation slides (with embedded audio) that you can view online or download and print.
- Biographies and pictures of the instructors.
- A brief abstract.
- Links to additional resources.

What are our Webcast participants saying about this fabulous no-cost resource?

"Thank you so much for the professional, interesting, and informative session. I applaud your efforts – excellent learning tool."

"There were six of us in my office that tuned in to this program. The Webcast is a very effective forum, and it's nice to not have to travel!"

"I have been in the watershed non-profit field for 15 years. This was a very useful and concise presentation that I can share with my staff and volunteer directors. I plan to implement recommendations in our 2006 funding plan immediately."

The material presented in these Webcasts are reviewed by EPA staff for technical accuracy. However, the views of the speakers and the speakers organizations are their own and do not necessarily reflect those of the EPA. Mention of any commercial enterprise, product, or publication does not mean that EPA endorses them.
